

Full Length Die 7/8 - Full Length Die 8x75 RS

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Full Length Die Safety Instruction Guide

Introduction

Thank you for choosing the Full Length Die 7/8 Full Length Die 8x75 RS. This guide provides important safety instructions and usage information to ensure your safe and efficient use of this product. Please read this manual carefully before using the die to understand its features and how to operate it safely.

General Safety Guidelines

- Ensure that the die is used only for its intended purpose: resizing cartridge cases.
- Always wear appropriate safety gear, including safety glasses, when operating the die.
- Keep the work area clean and free from obstructions to prevent accidents.
- Store the die in a secure location away from children and pets.
- Regularly inspect the die for wear and damage. Do not use if any parts are worn or damaged.
- Ensure that all tools and equipment used in conjunction with the die are in good working condition.

Specific Safety Precautions for Use

- Always follow the manufacturer's instructions for installation and usage.
- Do not exceed the recommended pressure when resizing cartridge cases.
- Ensure that the die is properly secured in the press before use.
- Use only compatible cartridge cases with the die to avoid malfunction or injury.
- Do not attempt to modify the die or its components in any way.
- Be cautious of hot surfaces when operating the die, as it may become warm during use.

Instructions for Installation and Usage

1. Installation:

- Secure the die in the press using the lock nut. Ensure it is tightly fastened to prevent movement during operation.
- Check that the expander and ejector pin are correctly positioned and functional.

2. Usage:

- Insert the cartridge case into the die and apply smooth, even pressure.
- The neck of the cartridge case will be calibrated from the inside as it is pushed through the die.
- Once the resizing process is complete, carefully remove the cartridge case from the die.
- Inspect the resized case for any defects before use.

3. Calibration:

- Calibration occurs automatically when the cartridge case is resized. Ensure that the die is correctly positioned for accurate results.

Disposal Instructions

- Dispose of any worn or damaged components in accordance with local regulations.
- Recycle the die and its components where facilities exist to do so.
- Do not dispose of the die in general waste; follow local guidelines for hazardous materials if applicable.

Contact Information for Further Support

For any questions or concerns regarding the Full Length Die 7/8 Full Length Die 8x75 RS, please contact your local distributor or refer to the official manufacturer website for further assistance.

Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective experience with your Full Length Die. Always prioritize safety and adhere to the recommended practices to protect yourself and others while using this product. Thank you for your attention to these important safety measures.
