

Full Length Die 7/8 - Full Length Die 8x51 R Lebel

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Full Length Die 7/8 and 8x51 R Lebel Safety Instruction Guide

Introduction

Thank you for choosing the Full Length Die 7/8 and 8x51 R Lebel. This guide provides essential safety instructions and guidelines to ensure the safe use of this product. Please read this guide carefully before using the die to avoid any potential hazards.

General Safety Guidelines

- Always ensure that the die is used in accordance with the manufacturer's instructions.
- Keep the die out of reach of children and vulnerable groups to prevent accidents.
- Regularly inspect the die for any signs of wear or damage before use.
- Use protective eyewear when operating the die to safeguard against any debris or particles.
- Ensure that the workspace is clean and free of any obstructions to prevent accidents.
- Do not modify the die in any way, as this could lead to unsafe conditions.
- Familiarize yourself with the Safety Gate system for rapid alerts on unsafe products.

Specific Safety Precautions for Use

• Hazard Identification:

- Potential pinch points exist when operating the die. Be cautious of fingers or hands near moving parts.
- The die may produce metal shavings or debris. Always wear safety glasses to protect your eyes.

• Avoiding Hazards:

- Always operate the die with the appropriate tools and in a stable environment.
- Do not exceed the recommended specifications for the die to avoid malfunction.
- Ensure that the die is securely mounted in the press to prevent movement during operation.

• Age Specific Warnings:

- This product is intended for use by adults only. Keep out of reach of children.
- Ensure that inexperienced users are supervised when operating the die.

Instructions for Installation and Usage

1. Installation:

- Securely mount the die in your reloading press using the lock nut to ensure stability.
- Verify that the die is correctly aligned before use to avoid misalignment during operation.

2. Usage:

- Insert the cartridge case into the die and push it down gently to initiate sizing.
- The neck of the case will be calibrated from the inside as it is removed from the die.
- Regularly check the neck tension to ensure proper fit and performance.
- If necessary, replace the expander and ejector pin with minimal effort as needed.

3. Calibration:

- Calibration occurs automatically when the cartridge case is pushed into the die.
- Ensure that you follow the calibration process to achieve the correct neck tension.

Disposal Instructions

- Dispose of the die and any worn or damaged components in accordance with local regulations.
- Do not discard the die in regular household waste. Check for recycling options for metal components.

Contact Information for Further Support

For any safety inquiries or assistance, please refer to the manufacturer's contact information provided in the product manual or packaging. It is important to have an EUbased contact for safetyrelated questions.

Conclusion

By following these safety guidelines and instructions, you can ensure a safe and effective experience while using the Full Length Die 7/8 and 8x51 R Lebel. Always prioritize safety and do not hesitate to seek assistance when needed.
