

Full Length Die 7/8 - Full Length Die 338 Federal

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Full Length Die 7/8 Safety Instructions

Introduction

Thank you for choosing the Full Length Die 7/8 for your reloading needs. This guide provides essential safety instructions and information to ensure safe and effective use of the product. Please read this manual carefully before use.

General Safety Guidelines

- Always ensure that the die is used in accordance with the manufacturer's instructions.
- Inspect the die before each use for any signs of damage or wear.
- Keep the die out of reach of children and vulnerable individuals.
- Use the die only for its intended purpose: resizing cartridge cases.
- Always wear appropriate safety gear, such as safety glasses, when using reloading equipment.
- Be aware of your surroundings and ensure that you are in a safe environment when using the die.
- Report any unsafe product experiences or accidents to the relevant authorities.

Specific Safety Precautions for Use

• Potential Hazards:

- Risk of injury from sharp edges.
- Risk of malfunction if the die is damaged or improperly used.
- Risk of incorrect ammunition sizes if the die is not calibrated properly.

• Avoiding Hazards:

- Always handle the die carefully to avoid cuts or injuries.
- Do not use the die if it shows signs of damage or wear.
- Ensure that the die is properly calibrated before use to avoid ammunition issues.
- Follow all instructions regarding the installation and usage of the die.

• Age Specific Warnings:

- This product is intended for use by adults only. Keep out of reach of children.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is clean and free of debris.
- Securely attach the Full Length Die 7/8 to the press using the lock nut.
- Check that the die is properly aligned and tightened before use.

2. Usage:

- Insert the cartridge case into the die.
- Push the cartridge case into the die to size it properly.
- The neck of the case will be calibrated from the inside as it is moved out of the die.
- If necessary, replace the expander and ejector pin with minimal effort.

3. Calibration:

- Calibration occurs as the cartridge case is pushed into the die.
- Ensure the correct neck tension is achieved for safe and effective ammunition.

4. PostUse:

- Clean the die after each use to ensure longevity and proper function.
- Store the die in a safe, dry place away from children and pets.

Disposal Instructions

- Dispose of the Full Length Die 7/8 according to local regulations.
- Do not dispose of the die in regular household waste.
- Consider recycling options or returning the product to the manufacturer for proper disposal.

Contact Information for Further Support

For any questions or concerns regarding the Full Length Die 7/8, please refer to the manufacturer's contact details or consult the product manual for further assistance. Always ensure that you have the correct information before proceeding with any inquiries.

This safety instruction guide is designed to comply with the EU General Product Safety Regulation (GPSR). By following these guidelines, you can ensure a safe and effective reloading experience. Thank you for your attention to safety.
