

Full Length Die 7/8 - Full Length Die 350 Mag Rigby

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Full Length Die 7/8 Safety Instruction Guide

Introduction

Thank you for choosing the Full Length Die 7/8 for your reloading needs. This guide provides essential safety instructions and operational guidelines to ensure safe and effective use of the product. Please read this manual carefully before using the die.

General Safety Guidelines

- Ensure that the die is used only for its intended purpose of resizing cartridge cases.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses when operating the die.
- Keep the workspace clean and free from clutter to prevent accidents.
- Store the die in a safe place, out of reach of children and pets.
- Regularly inspect the die for signs of wear or damage. Do not use if damaged.
- Follow all local laws and regulations regarding ammunition reloading and handling.

Specific Safety Precautions for Use

- Do not exceed the recommended load specifications for the cartridge being resized.
- Always ensure that the die is properly secured in the press before use.
- Do not attempt to modify the die or its components.
- Ensure that the cartridge case is clean and free from obstructions before resizing.
- Use the die in a wellventilated area to avoid inhaling any dust or particles.
- In case of any malfunction or abnormal operation, stop using the die immediately and consult the manual for troubleshooting.

Instructions for Installation and Usage

1. Installation:

- Secure the die in the reloading press using the lock nut. Ensure it is tightly fastened to prevent movement during operation.
- Adjust the height of the die according to the specifications provided in the reloading press manual.

2. Usage:

- Insert a clean cartridge case into the die.
- Pull the handle of the press to push the cartridge case into the die.
- The neck of the case will be calibrated from the inside as it exits the die, achieving the correct neck tension.
- Check the resized case for proper dimensions and neck tension before proceeding to the next step in the reloading process.

3. Maintenance:

- After use, clean the die with a soft cloth to remove any residue or debris.
- Store the die in a protective case or original packaging to prevent damage.

Disposal Instructions

- Dispose of any damaged or wornout components according to local regulations for hazardous waste.
- Do not dispose of the die in regular household waste. Check local guidelines for proper disposal methods.

Contact Information for Further Support

For any inquiries or assistance regarding the Full Length Die 7/8, please consult the product manual or contact the manufacturer's customer support.

Conclusion

Following these safety guidelines and instructions will help ensure a safe and efficient reloading experience. Always prioritize safety and compliance with local regulations when using the Full Length Die 7/8. Thank you for your attention to these important safety measures.
