

# Full Length Die 7/8 - Full Length Die 358 Win

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Full Length Die 7/8 Safety Instructions

## Introduction

Thank you for choosing the Full Length Die 7/8 for your reloading needs. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this manual carefully before using the die to understand its features and safety precautions.

## General Safety Guidelines

- Ensure that you are familiar with the safe handling and operation of reloading equipment.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using the die.
- Keep the work area clean and organized to prevent accidents.
- Store the die and all related components in a secure location, out of reach of children and vulnerable individuals.
- Report any unsafe product experiences or accidents to the relevant authorities.
- Stay updated on product recalls by checking the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Ensure that the die is compatible with your reloading press before use.
- Inspect the die for any visible damage or wear before each use.
- Do not use the die if any components are missing or damaged.
- Follow the manufacturer's instructions for installation and usage to avoid hazards.
- Use only recommended cartridges and components with the die to prevent malfunction.
- Avoid exceeding the maximum pressure limits specified for the die and cartridges.

## Instructions for Installation and Usage

### 1. Installation

- Securely mount the Full Length Die 7/8 in your reloading press using the lock nut to ensure it is firmly in place.
- Check that the die is aligned correctly with the press before beginning the reloading process.

### 2. Usage

- Insert the cartridge case into the die, ensuring it is fully seated.
- Pull the handle of the press to size the cartridge case. The die will calibrate the neck from the inside as the case is pushed through.
- Monitor the tension of the neck to ensure it meets your specifications.
- If necessary, replace the expander and ejector pin with minimal effort, following the manufacturer's guidelines.

## Disposal Instructions

- Dispose of any defective or wornout parts in accordance with local regulations for hazardous waste.
- Do not throw away the die in regular household waste. Check for recycling options or designated disposal facilities.

## **Contact Information for Further Support**

For any questions regarding safety, installation, or usage of the Full Length Die 7/8, please refer to the manufacturer's manual or contact your local distributor for assistance.
