

# Full Length Die 7/8 - Full Length Die 375 Ruger

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Full Length Die 7/8 Safety Instruction Guide

## Introduction

Thank you for choosing the Full Length Die 7/8 for your reloading needs. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read and understand all instructions before use.

## General Safety Guidelines

- Always use the Full Length Die in accordance with the manufacturer's instructions.
- Ensure that the workspace is clean and organized to avoid accidents.
- Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves during use.
- Keep the die and all reloading components out of reach of children and unauthorized users.
- Regularly inspect the die for any signs of wear or damage before use.
- Report any unsafe conditions or accidents to the relevant authorities immediately.
- Stay informed about product recalls and safety updates via the EU Safety Gate platform.

## Specific Safety Precautions for Use

- Ensure that the die is securely mounted in the press before use.
- Do not exceed the recommended load limits for the cartridge cases you are working with.
- Always check the cartridge case for defects before sizing.
- Avoid placing hands or fingers near moving parts during operation.
- Use the die only for its intended purpose; do not modify or alter it.
- If you experience any unusual resistance while sizing, stop immediately and inspect the die and cartridge case.

## Instructions for Installation and Usage

### 1. Installation:

- Securely attach the Full Length Die to your reloading press using the lock nut.
- Ensure that the die is aligned properly with the press to avoid misalignment during operation.

### 2. Usage:

- Insert the cartridge case into the die.
- Slowly push the case into the die, allowing the neck to calibrate from the inside.
- Remove the case from the die after sizing.
- Inspect the case for proper neck tension and overall integrity.
- If using the expander, ensure it is correctly positioned before operation.

## Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of the die in regular household waste; check for appropriate recycling options.
- Follow local guidelines for the disposal of any hazardous materials associated with reloading.

## Contact Information for Further Support

For any questions or concerns regarding the Full Length Die, please refer to the manual for additional instructions and assistance. Ensure you have the article number for easy reordering of components if necessary.

By following these safety guidelines and instructions, you can ensure a safe and effective reloading experience with the Full Length Die 7/8. Thank you for your attention to safety.
