

# Seater with Crimp 7/8 - Seater with Crimp 5,6x61 S.E.v.H.

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Bullet Seater with crimp (Seat)

Our standard bullet seater guides the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Safety Instruction Guide for Seater with Crimp 7/8

## Introduction

Thank you for choosing the Seater with Crimp 7/8. This product is designed to provide a reliable method for seating bullets with the option to crimp. To ensure safe and effective use, please read this safety instruction guide carefully. It contains important information regarding product safety, usage precautions, and disposal instructions.

## General Safety Guidelines

- Always use the Seater with Crimp 7/8 in accordance with the manufacturer's instructions.
- Ensure that the workspace is clean and free from distractions while using this product.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check for any signs of wear or damage to the product before use.
- Report any unsafe conditions or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Before using the Seater with Crimp 7/8, ensure that you are familiar with its components and operation.
- Wear appropriate safety gear, including safety glasses and gloves, while handling ammunition components.
- Do not exceed the recommended specifications for the bullet and cartridge case.
- Ensure that the bullet is properly aligned in the guide bushing before seating.
- Use the crimp feature only when necessary. Improper crimping can lead to ammunition failure.
- Avoid using excessive force when replacing the seaterhead to prevent damage.
- Store the product in a dry and secure location when not in use.

## Instructions for Installation and Usage

### 1. Installation of the Seater with Crimp 7/8:

- Ensure that your reloading press is clean and properly set up.
- Attach the Seater with Crimp 7/8 to the reloading press by screwing it into the 7/8 thread until secure.
- Select the appropriate seaterhead for your bullet type and replace the existing head if necessary.

### 2. Seating Bullets:

- Place the cartridge case in the shell holder of the reloading press.
- Insert the bullet into the mouth of the cartridge case, ensuring proper alignment.
- Activate the reloading press to seat the bullet. Monitor the process to ensure accurate seating.
- If crimping is desired, adjust the seaterhead to engage the crimping feature.

### 3. PostUsage:

- After use, clean the Seater with Crimp 7/8 to remove any residue.
- Inspect the product for any signs of damage or wear before storage.

## **Disposal Instructions**

- Dispose of the Seater with Crimp 7/8 in accordance with local regulations for hazardous materials.
- Do not dispose of the product in regular household waste.
- Contact local waste management authorities for guidance on proper disposal methods.

## **Contact Information for Further Support**

For any safety inquiries or additional support regarding the Seater with Crimp 7/8, please refer to the manufacturer's contact details provided in the product manual or packaging.

Thank you for prioritizing safety while using the Seater with Crimp 7/8. Following these guidelines will help ensure a safe and enjoyable experience.
