

Seater with Crimp 7/8 - Seater with Crimp 6x62 Frères

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Seater with Crimp 7/8 and 6x62 Frères

Introduction

Thank you for choosing the Seater with Crimp 7/8 and 6x62 Frères. This product is designed to assist in the accurate seating of bullets while providing the option to crimp the cartridge case. To ensure your safety and the safe use of this product, please read and follow the instructions in this guide carefully.

General Safety Guidelines

- Ensure that you are familiar with the handling of reloading equipment and ammunition.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using this product.
- Keep this product out of reach of children and unauthorized users.
- Regularly inspect the product for any signs of damage or wear before use.
- Follow all local laws and regulations regarding the use of reloading equipment and ammunition.

Specific Safety Precautions for Use

- Always ensure that the workspace is clean and free of any obstructions before starting the reloading process.
- Do not use the Seater with Crimp for any purpose other than its intended use.
- Avoid applying excessive force when seating bullets, as this may lead to accidents or damage to the product.
- Never leave the reloading process unattended.
- If you experience any issues while using the product, cease operation immediately and consult the manual for troubleshooting.

Instructions for Installation and Usage

1. Installation of the Seater Head

- Ensure the reloading press is securely mounted and stable.
- Remove the existing seater head by loosening the locking mechanism.
- Select the appropriate seater head for your bullet type.
- Insert the new seater head into the press and tighten the locking mechanism securely.

2. Seating the Bullet

- Place the cartridge case in the shell holder of the press.
- Insert the bullet into the case mouth.
- Activate the press to seat the bullet. Ensure that the bullet is guided into the exact guide bushing for accuracy.
- If crimping is desired, adjust the crimping feature according to the manufacturer's instructions.

3. PostUsage Care

- After completing the reloading process, clean the product to remove any residue.
- Store the Seater with Crimp in a dry, cool place, away from moisture and direct sunlight.

Disposal Instructions

- When the Seater with Crimp is no longer in use or has reached the end of its life, dispose of it in accordance with local regulations for electronic waste and metal products.
- Do not dispose of the product in regular household waste.

Contact Information for Further Support

For any inquiries regarding safety or product usage, please refer to the manufacturer's manual or website for contact details and further assistance.

Thank you for following these safety guidelines. Your adherence to these instructions helps ensure a safe and effective reloading experience.
