

Seater with Crimp 7/8 - Seater with Crimp 6mm BR Rem

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Bullet Seater with crimp (Seat)

Our standard bullet seater guides the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Seater with Crimp 7/8 and 6mm BR Rem

Introduction

Thank you for choosing the Seater with Crimp 7/8 and 6mm BR Rem. This product is designed to provide you with a reliable and effective method for seating bullets. To ensure your safety and the optimal performance of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always handle this product with care and follow all safety instructions.
- Ensure that you are using the product in a wellventilated area.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the product for any signs of wear or damage before use.
- Always wear appropriate safety gear, including eye protection and gloves, when using this product.
- Do not exceed the recommended specifications for use.

Specific Safety Precautions for Use

- Ensure that the bullet seater is compatible with the bullets you are using.
- Avoid using the product if you are unfamiliar with reloading processes; seek guidance from a qualified individual.
- Do not attempt to modify or alter the product in any way.
- Always follow the manufacturer's specifications for installation and operation.
- Be cautious of any sharp edges on the product that could cause injury during handling.
- Make sure the cartridge case is securely held in place before applying pressure to the seater.

Instructions for Installation and Usage

1. Installation of the Seater Head:

- Choose the appropriate seater head for your specific bullet type.
- Ensure that the seater head is securely attached to the main body of the seater.
- Follow the manufacturer's instructions for attaching and detaching the seater head.

2. Seating the Bullet:

- Place the cartridge case into the designated holder.
- Insert the bullet into the mouth of the cartridge case.
- Gradually apply pressure to the seater head to seat the bullet into the case.
- If crimping is required, adjust the seater to apply a crimp to the mouth of the cartridge case.
- Inspect the seated bullet to ensure it is properly aligned and seated.

3. Maintenance:

- After use, clean the product to remove any debris or residue.
- Store the product in a dry and safe location to prevent damage.

Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- If the product is no longer in use, consider recycling components where applicable.

- Ensure that any hazardous materials associated with the product are disposed of safely and responsibly.

Contact Information for Further Support

For any questions or concerns regarding the use or safety of this product, please refer to the manufacturer's contact information provided in the product packaging or manual.

By following these safety instructions, you can ensure a safe and effective experience with the Seater with Crimp 7/8 and 6mm BR Rem. Always prioritize safety and compliance with local regulations when using this product.
