Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Seater with Crimp 7/8

Introduction

Thank you for choosing the Seater with Crimp 7/8. This product is designed to assist you in the precise seating of bullets while providing the option to crimp the cartridge case. It is essential to follow the safety guidelines outlined in this manual to ensure safe and effective use.

General Safety Guidelines

- Always read and understand the instructions before using the product.
- Ensure that the product is used only for its intended purpose as described in the manual.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of damage or wear.
- If you notice any defects or malfunctions, discontinue use immediately and seek assistance.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including eye protection, when using the Seater with Crimp.
- Ensure that the work area is welllit and free from distractions.
- Do not exceed the recommended specifications for the bullet and cartridge case.
- Avoid using the product in wet or damp conditions to prevent electrical hazards.
- Do not attempt to modify or alter the product in any way.
- When replacing the seaterhead, ensure that it is securely attached before use.

Instructions for Installation and Usage

1. Installation of the Seater with Crimp

- Ensure that you have all necessary components before beginning the installation.
- Securely attach the Seater with Crimp to the reloading press according to the manufacturer's instructions.
- Check that the thread size (7/8) matches your reloading press specifications.

2. Using the Bullet Seater

- Place the bullet into the guide bushing of the bullet seater.
- Adjust the seating depth according to your specifications.
- If crimping is desired, ensure that the crimping feature is engaged before proceeding.
- Operate the reloading press smoothly to seat the bullet without applying excessive force.

3. Replacing the SeaterHead

- To replace the seaterhead, unscrew the existing head from the seater assembly.
- Select the appropriate seaterhead for the bullet you are using.
- Securely attach the new seaterhead and ensure it is properly aligned.

Disposal Instructions

- Dispose of the product in accordance with local regulations for hazardous waste.
- Do not dispose of the product in regular household waste.

- If you are unsure how to dispose of the product, consult local waste management authorities for guidance.

Contact Information for Further Support

For any safety inquiries or product support, please refer to the contact information provided on the packaging or product documentation.

Conclusion

Following these safety instructions will help ensure a safe and effective experience with your Seater with Crimp 7/8. Always prioritize safety and compliance with relevant regulations during use. Thank you for choosing our product.
