

# Seater with Crimp 7/8 - Seater with Crimp 6,5x64 Brenneke

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Safety Instructions for Seater with Crimp 7/8 and Crimp 6.5x64 Brenneke

## Introduction

Thank you for choosing the Seater with Crimp 7/8 and Crimp 6.5x64 Brenneke. This product is designed for precision bullet seating and crimping, ensuring accuracy and reliability in your reloading process. To ensure your safety and the safe use of this product, please read and follow the guidelines outlined in this document.

## General Safety Guidelines

- Always handle ammunition and reloading equipment with care.
- Keep the product out of reach of children and unauthorized users.
- Ensure you are familiar with local laws and regulations regarding ammunition reloading.
- Always wear appropriate safety gear, such as safety glasses and gloves, when using this product.
- Regularly inspect the product for any signs of damage or wear before use.
- Follow all manufacturer instructions and guidelines when using the product.

## Specific Safety Precautions for Use

### • Potential Hazards:

- Improper handling can lead to accidental discharge or injury.
- Using the wrong seater head can affect bullet concentricity and performance.

### • Avoiding Hazards:

- Always ensure the firearm is pointed in a safe direction when handling ammunition.
- Do not exceed recommended load specifications.
- Ensure the bullet is properly seated and crimped before using the ammunition.
- Use only compatible components with the Seater to avoid malfunctions.

### • AgeSpecific Warnings:

- This product is intended for use by individuals who are 18 years of age or older.
- Ensure that inexperienced users are supervised by a qualified adult.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the reloading press is securely mounted on a stable surface.
- Select the appropriate seater head for the bullet you are using.
- Install the seater head by following the manufacturer's instructions provided with the product.

### 2. Usage:

- Prepare your cartridge case and bullet as per the reloading guidelines.
- Insert the cartridge case into the reloading press.
- Position the bullet in the case mouth.
- Operate the press to seat the bullet to the desired depth.
- If crimping is required, adjust the crimp settings as per the bullet specifications and operate the press again.

- Inspect the completed cartridge for proper seating and crimping.

### **3. PostUse:**

- Clean the Seater after use to maintain its performance.
- Store the product in a dry and secure location.

## **Disposal Instructions**

- Dispose of any damaged or worn parts in accordance with local regulations.
- Do not dispose of ammunition or components in regular trash.
- Contact your local waste management facility for proper disposal methods for hazardous materials.

## **Contact Information for Further Support**

For additional information or assistance regarding the Seater with Crimp 7/8 and Crimp 6.5x64 Brenneke, please refer to the manufacturer's contact details provided in the product manual or packaging.

By following these safety instructions, you can ensure a safe and efficient reloading experience. Thank you for your attention to safety, and enjoy using your Seater with Crimp 7/8 and Crimp 6.5x64 Brenneke.
