Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Safety Instruction Guide for Seater with Crimp 7/8

## Introduction

Thank you for choosing the Seater with Crimp 7/8. This product is designed for precision bullet seating with the option to crimp, ensuring optimal performance in your reloading process. This safety instruction guide provides essential information to ensure safe and effective use of the product, in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always read and understand the instructions before using the product.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for wear and damage. Do not use if damaged.
- Report any unsafe products or accidents to the authorities.

## Specific Safety Precautions for Use

- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when operating the Seater with Crimp.
- Ensure that the workspace is clean and free from distractions to avoid accidents during use.
- Be cautious when handling ammunition components. Follow all safety guidelines for handling firearms and ammunition.
- Do not exceed the recommended specifications for bullet seating and crimping.
- Always follow the manufacturer's guidelines for replacement of the seaterhead to ensure compatibility and safety.

## Instructions for Installation and Usage

### 1. Installation of the Seater with Crimp:

- Ensure that your reloading press is securely mounted and stable.
- Attach the Seater with Crimp to the reloading press using the 7/8 thread.
- Tighten the seater securely, but do not overtighten, as this may damage the threads.

### 2. Using the Seater with Crimp:

- Select the appropriate seaterhead for the bullet you are using. Refer to the manual for guidance on choosing the correct head.
- Place the cartridge case in the reloading press and ensure it is properly aligned.
- Insert the bullet into the case mouth and lower the press handle to seat the bullet.
- If crimping is desired, adjust the seaterhead to apply the crimp. Ensure that the crimp is applied evenly and securely.
- Inspect the finished cartridge to ensure proper seating and crimping.

### 3. Maintenance:

- Regularly clean the Seater with Crimp to remove any residue. Use a soft cloth and appropriate cleaning solution.
- Store the product in a dry, cool place when not in use to prevent corrosion and damage.

## **Disposal Instructions**

- Dispose of the Seater with Crimp in accordance with local regulations for nonhazardous waste.
- Do not dispose of in household waste. Check for recycling options or designated disposal sites for metal products.

## **Contact Information for Further Support**

For any inquiries regarding safety or product support, please refer to the manufacturer's contact details provided in the product packaging or manual.

By following these safety instructions, you can ensure a safe and effective reloading experience with the Seater with Crimp 7/8. Thank you for your attention to safety and compliance.
