Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

NO IMAGE  
AVAILABLE

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

## Attributes

- Name: [Seater with Crimp 300 WSM](#)
- Manufacturer: [TRIEBEL](#)
- Product no.: EU2012911

# Safety Instruction Guide for Seater with Crimp 7/8 Seater with Crimp 300 WSM

## Introduction

Thank you for choosing the Seater with Crimp 7/8 Seater with Crimp 300 WSM. This product is designed for precision bullet seating and crimping, ensuring safety and accuracy in your reloading activities. Please read this safety instruction guide carefully to ensure proper use and to maximize safety.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose, which is to seat and crimp bullets for reloading cartridges.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling ammunition and reloading equipment.
- Keep the workspace clean and organized to prevent accidents.
- Store the product in a dry, secure place away from children and pets.
- Regularly inspect the Seater for wear and tear. Replace any worn components immediately.
- Do not use the Seater if it is damaged or malfunctioning.

## Specific Safety Precautions for Use

- Use only the recommended types of bullets and cartridge cases as specified in the product manual.
- Ensure that the seaterhead is securely attached before use to prevent accidents during operation.
- Avoid overcrimping as this can lead to bullet deformation and affect accuracy.
- Do not exceed the manufacturer's recommended load specifications for the cartridges being used.
- Always doublecheck the seating depth of the bullet before finalizing the crimp.
- Be cautious of any debris or obstructions in the workspace that may interfere with the operation of the Seater.

## Instructions for Installation and Usage

### 1. Installation of the Seater:

- Ensure that your reloading press is compatible with the 7/8 thread size.
- Securely attach the Seater to the reloading press by screwing it into the press until tight.
- Verify that the seaterhead is installed correctly and is the appropriate type for the bullets being used.

### 2. Loading and Seating Bullets:

- Prepare your cartridge cases by ensuring they are clean and free of any obstructions.
- Insert the cartridge case into the reloading press.
- Place a bullet into the case mouth, ensuring it is properly aligned.
- Pull the handle of the reloading press to seat the bullet to the desired depth.
- If crimping is required, adjust the Seater to apply the appropriate amount of crimp.

### 3. PostUse Safety:

- After use, clean the Seater and surrounding area to remove any residue.
- Store the Seater in a safe location, away from children and unauthorized users.

## **Disposal Instructions**

- Dispose of any used or damaged components in accordance with local regulations for hazardous waste.
- Do not dispose of ammunition or reloading components in regular household waste.
- Contact your local waste disposal authority for guidance on safe disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the Seater with Crimp 7/8 Seater with Crimp 300 WSM, please refer to the product manual or contact the manufacturer directly for assistance.

By following these safety instructions, you can ensure a safe and effective reloading experience with your Seater with Crimp 7/8 Seater with Crimp 300 WSM. Thank you for your attention to safety, and happy reloading!
