

# Seater with Crimp 7/8 - Seater with Crimp 8x56 Mannl.-Sch.

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Bullet Seater with crimp (Seat)

Our standard bullet seater guides the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Safety Instruction Guide for Seater with Crimp 7/8 and 8x56 Mannl.Sch.

## Introduction

Thank you for choosing the Seater with Crimp 7/8 and 8x56 Mannl.Sch. This product is designed to provide you with a reliable and accurate method for seating bullets. To ensure your safety and the effective use of this product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Ensure that the product is used only by individuals who are familiar with reloading equipment and practices.
- Always inspect the Seater for any signs of damage or wear before use.
- Store the Seater in a dry and secure location, out of reach of children and pets.
- Follow all local laws and regulations regarding the use of reloading equipment and ammunition.
- Report any unsafe products or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Always wear appropriate safety gear, including eye protection, when using the Seater.
- Ensure that the work area is clean, organized, and free of distractions.
- Do not exceed the recommended pressures or load specifications for the cartridges you are using.
- Use the correct seaterhead for the bullet type to improve accuracy and prevent potential hazards.
- Avoid using the Seater if you are fatigued or under the influence of substances that may impair your judgment.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure your reloading press is securely mounted and stable.
- Remove the existing die from the press if applicable.
- Install the Seater by threading it into the press using the provided 7/8 thread. Ensure it is tightened securely but do not overtighten.
- Select the appropriate seaterhead for your bullet type and replace the seaterhead as necessary.

### 2. Usage:

- Prepare your cartridge cases according to your reloading procedure.
- Place the bullet into the cartridge case and position it under the Seater.
- Slowly operate the press to seat the bullet. If crimping is desired, ensure the crimping feature is engaged appropriately.
- After seating, inspect the cartridges to ensure proper seating depth and crimp.
- Store the Seater and any spare parts in a safe location when not in use.

## Disposal Instructions

- Dispose of any damaged or worn parts in accordance with local waste disposal regulations.
- Do not dispose of the Seater or its components in regular household waste. Instead, check for local recycling programs or hazardous waste disposal options.

## **Contact Information for Further Support**

For any inquiries regarding safety or product usage, please refer to the manufacturer's customer service or the product manual.

Thank you for your attention to these safety instructions. Your safety and satisfaction are our top priorities.
