Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Seater with Crimp 7/8 and 9,3x64 Br

Introduction

Thank you for choosing the Seater with Crimp 7/8 and 9,3x64 Br. This product is designed to help you achieve precise bullet seating with the option to crimp the cartridge case. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that you use this product in accordance with all applicable safety laws and regulations.
- Always wear appropriate safety gear, including eye protection, when using this product.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage before use.
- Report any unsafe conditions or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Before using the bullet seater, ensure that it is compatible with the bullet type you intend to use.
- Always follow the manufacturer's instructions for installation and usage.
- Avoid using excessive force when seating bullets to prevent damage to the seater or cartridge.
- Do not attempt to modify the seaterhead or any other parts of the product.
- Ensure that the work area is clean and free of obstructions to prevent accidents.

Instructions for Installation and Usage

1. Installation:

- Carefully unpack the Seater with Crimp and inspect for any damage.
- Choose the appropriate seaterhead for your bullet type.
- Install the seaterhead according to the manufacturer's instructions.
- Ensure that all components are securely fastened before use.

2. Usage:

- Place the cartridge case in the seater.
- Align the bullet with the guide bushing.
- Gently press down to seat the bullet until it is at the desired depth.
- If crimping is required, adjust the seater to crimp the mouth of the cartridge case.
- Remove the seated cartridge and inspect for proper seating and crimping.

Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- If the product is no longer in use, check with local authorities for proper disposal methods.
- Do not dispose of the product in household waste if it contains hazardous materials.

Contact Information for Further Support

For further assistance or inquiries regarding safety and usage of the Seater with Crimp, please consult the manufacturer's manual or reach out to your local distributor.
