

Seater with Crimp 7/8 - Seater with Crimp 375 Ruger

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Seater with Crimp 7/8 Safety Instruction Guide

Introduction

Thank you for choosing the Seater with Crimp 7/8 for your reloading needs. This product is designed to ensure precise bullet seating while allowing the option to crimp the cartridge case mouth. To ensure safe and effective use, please read this safety instruction guide carefully.

General Safety Guidelines

- Always handle reloading equipment with care and follow all safety protocols.
- Ensure that your working area is clean, welllit, and free from distractions.
- Keep all components, including bullets, powder, and primers, out of reach of children and vulnerable individuals.
- Regularly inspect your equipment for wear and damage. Replace any worn or damaged parts immediately.
- Use only compatible components and follow the manufacturer's specifications for your reloading process.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Improper use may lead to misfires or explosive failures.
 - Always check that the bullet seater is securely attached before use.
 - Avoid using excessive force when seating bullets, as this may damage both the bullet and the cartridge.
- **Avoiding Hazards:**
 - Do not exceed the recommended seating depth for the bullet.
 - Ensure that your workspace is free of any flammable materials.
 - Always wear safety glasses when reloading to protect your eyes from potential debris.
- **AgeSpecific Warnings:**
 - This product is not intended for use by individuals under the age of 18.
 - Ensure that all users are trained in safe reloading practices.

Instructions for Installation and Usage

- **Installation:**
 1. Ensure the reloading press is securely mounted to a stable surface.
 2. Select the appropriate seater head for the bullet you are using. Refer to the manufacturer's compatibility chart if necessary.
 3. Attach the seater head to the press according to the manufacturer's instructions.
 4. Check that the seater is properly aligned with the die.
- **Usage:**
 1. Prepare your cartridge cases and ensure they are clean and free of debris.
 2. Insert the bullet into the case mouth.
 3. Adjust the seater to the desired depth according to your reloading specifications.

4. Operate the press to seat the bullet. Ensure that the bullet is seated straight and at the correct depth.
5. If crimping is desired, adjust the crimp feature according to your specifications.
6. Inspect the completed cartridge for proper seating and crimping.

Disposal Instructions

- Dispose of any unused or damaged components according to local regulations.
- Do not throw away reloading components in regular household waste.
- Contact your local waste management authority for guidance on proper disposal methods for hazardous materials.

Contact Information for Further Support

For any questions regarding the Seater with Crimp 7/8 or for further assistance, please refer to the manufacturer's website or contact their customer support.

Thank you for prioritizing safety in your reloading practices. Enjoy your reloading experience with the Seater with Crimp 7/8!
