

## Bench-Rest-Seater 7/8 - Bench-Rest-Seater 6mm BR Rem

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of “bullet runout”, there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# BenchRestSeater Safety Instructions

## Introduction

Thank you for choosing the BenchRestSeater 7/8 BenchRestSeater 6mm BR Rem. This product is designed to provide you with the highest precision when seating match bullets. To ensure safe and effective use, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Always use the BenchRestSeater in accordance with the manufacturer's instructions.
- Ensure that the work area is clean, dry, and wellventilated.
- Keep the BenchRestSeater and all accessories out of reach of children and vulnerable individuals.
- Inspect the product for any damage before use. Do not use if damaged.
- Be aware of the potential hazards associated with reloading ammunition, including but not limited to:
  - Improper handling of components.
  - Risk of injury from sharp objects.
  - Risk of explosion from improper loading.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the BenchRestSeater.

## Specific Safety Precautions for Use

- Always ensure that the correct seater head is used for the bullet type to improve concentricity and safety.
- Do not exceed the recommended torque settings during installation to avoid damage.
- Never attempt to modify the BenchRestSeater or its components.
- Always doublecheck your setup before proceeding with the seating operation.
- Keep hands and body clear of moving parts during operation.
- When not in use, store the BenchRestSeater in a secure location to prevent unauthorized access.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that the workspace is clear and all necessary tools are available.
- Select the appropriate seater head based on the bullet type.
- Attach the seater head to the BenchRestSeater by following these steps:
  - Align the seater head with the designated mounting area.
  - Secure the seater head using the provided screws, ensuring they are tightened to the recommended torque.

### 2. Usage:

- Prepare the cartridge case and bullet for seating.
- Place the cartridge case in the designated area of the BenchRestSeater.
- Insert the bullet into the case, ensuring proper alignment.
- Slowly and steadily apply pressure to the seater head until the bullet is seated to the desired depth.
- Inspect the seated bullet for proper alignment and concentricity.
- Repeat the process for additional cartridges as needed.

## **Disposal Instructions**

- Dispose of the BenchRestSeater and any components in accordance with local regulations.
- Do not throw the product in regular household waste. Instead, contact local waste management services for guidance on proper disposal methods.

## **Contact Information for Further Support**

For further assistance or inquiries regarding safety and usage, please refer to the contact information provided in the product manual or on the manufacturer's website.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective experience with the BenchRestSeater. Always prioritize safety and do not hesitate to seek assistance if you have questions or concerns regarding the use of this product. Thank you for your attention to safety!
