

Bench-Rest-Seater 7/8 - Bench-Rest-Seater 8x56 Mannl.-Sch.

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of “bullet runout”, there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

BenchRestSeater 7/8 and 8x56 Mannl.Sch. Safety Instructions

Introduction

Thank you for choosing the BenchRestSeater 7/8 and 8x56 Mannl.Sch. This product is designed for precision seating of match bullets, ensuring the highest standards of accuracy. To ensure your safety and the proper functioning of the product, please read this safety instruction guide carefully.

General Safety Guidelines

- Ensure the product is used only for its intended purpose.
- Always handle the BenchRestSeater with care to avoid injury.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage before use.
- Use protective eyewear when operating the seater.
- Follow all local laws and regulations regarding the use of reloading equipment.

Specific Safety Precautions for Use

- Before starting the seating operation, ensure that the guide sleeve is properly aligned with the cartridge case.
- Do not exceed the recommended seating depth to avoid damaging the bullet or cartridge.
- Always wear appropriate gloves to prevent injury from sharp edges.
- Ensure that the work area is clean and free from obstructions to prevent accidents.
- Never leave the seating operation unattended.
- If you notice any unusual sounds or resistance during operation, stop immediately and inspect the tool.

Instructions for Installation and Usage

1. Installation:

- Secure the BenchRestSeater to a stable work surface to prevent movement during use.
- Ensure that the seaterhead is properly installed and tightened before use.
- Select the appropriate seaterhead based on the bullet type you are using to improve concentricity.

2. Usage:

- Place the cartridge case into the guide sleeve, ensuring it is seated correctly.
- Insert the bullet into the cartridge case.
- Slowly and steadily press down on the seaterhead until the bullet is seated to the desired depth.
- Check the alignment and concentricity of the bullet after seating.
- If necessary, repeat the process with adjustments to achieve optimal results.

Disposal Instructions

- Dispose of the BenchRestSeater in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Consider recycling options for metal components where available.

Contact Information for Further Support

For any questions or concerns regarding the BenchRestSeater, please refer to the product manual or contact your local retailer for assistance.

Reporting Unsafe Products

If you encounter any issues with the product, or if you believe it may pose a safety risk, please report it to the relevant authorities. Regularly check for recall updates on the EU's Safety Gate platform to stay informed about product safety.

Thank you for your attention to these safety instructions. Your safety and satisfaction are our top priorities.
