

## Bench-Rest-Seater 7/8 - Bench-Rest-Seater 9,3x64 Br

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of “bullet runout”, there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Safety Instruction Guide for BenchRestSeater 7/8 and 9.3x64 Br

## Introduction

Thank you for choosing the BenchRestSeater 7/8 and 9.3x64 Br. This product is designed for precision seating of match bullets, ensuring optimal performance and safety during use. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

## General Safety Guidelines

- Ensure that the BenchRestSeater is used only for its intended purpose.
- Always handle the product with care to avoid injury.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of damage or wear.
- Follow all local laws and regulations regarding the use of reloading equipment.

## Specific Safety Precautions for Use

- Always wear safety glasses when using the BenchRestSeater to protect your eyes from potential debris or accidents.
- Ensure that the workspace is clean and free from any obstructions that could cause accidents.
- Avoid wearing loose clothing or jewelry that could get caught in moving parts.
- Do not exceed the recommended specifications for bullet seating to prevent malfunctions or unintended discharges.
- Always doublecheck the seating depth and alignment before proceeding with reloading.

## Instructions for Installation and Usage

### 1. Installation

- Ensure that the BenchRestSeater is securely mounted on a stable surface.
- Attach the appropriate seater head based on the bullet type you are using. Refer to the manual for specific guidance on selecting the correct seater head.
- Make sure all components are tightened and secure before use.

### 2. Usage

- Place the cartridge case into the guide sleeve of the BenchRestSeater.
- Align the bullet with the cartridge case to ensure proper seating.
- Gently apply pressure to the seater head to seat the bullet into the cartridge case.
- Monitor the process closely to ensure that the bullet is seated correctly and that there is no runout.
- After seating, remove the cartridge case and inspect for proper alignment and concentricity.

## Disposal Instructions

- Dispose of any damaged or worn components of the BenchRestSeater in accordance with local regulations.
- If the product is no longer in use, ensure that it is stored safely or disposed of responsibly to prevent accidents.

## **Contact Information for Further Support**

For any inquiries regarding safety concerns, product usage, or technical support, please refer to the official contact points provided with the product packaging or visit the manufacturer's website.

## **Conclusion**

By following these safety instructions and guidelines, you can ensure a safe and effective experience with the BenchRestSeater 7/8 and 9.3x64 Br. Always prioritize safety and consult the manual for additional information on accessories and spare parts. Thank you for your attention to safety and for choosing our product.
