

Full Length Die 1 1/4 - Full Length Die 6,5x52 R

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Full Length Die 1 1/4 Full Length Die 6,5x52 R

Safety Instructions

Introduction

Thank you for choosing the Full Length Die 1 1/4 Full Length Die 6,5x52 R. This product is designed to help you size cartridge cases safely and effectively. To ensure your safety and the proper functioning of the product, please read and follow these safety instructions carefully.

General Safety Guidelines

- Ensure that the die is used only for its intended purpose.
- Always wear appropriate safety gear, including eye protection, when using the die.
- Keep the die and all components out of reach of children and vulnerable individuals.
- Regularly inspect the die and its components for wear or damage before each use.
- If you notice any damage or malfunction, discontinue use immediately and seek assistance.

Specific Safety Precautions for Use

- Use the die in a wellventilated area to avoid inhaling any dust or debris.
- Always ensure the die is securely mounted in the press before use.
- Do not exceed the recommended pressure settings when resizing cartridge cases.
- Ensure that the cartridge case is properly aligned within the die before applying pressure.
- Avoid placing your hands near the die or press while it is in operation to prevent injury.
- Be cautious of sharp edges on the die and its components; handle with care.

Instructions for Installation and Usage

1. Installation:

- Securely attach the die to your reloading press using the provided lock nut.
- Ensure that the die is aligned correctly for optimal performance.
- Check that the expander and ejector pin are properly installed and functional.

2. Usage:

- Insert the cartridge case into the die, ensuring it is seated correctly.
- Gradually apply pressure using the press to resize the case.
- After resizing, carefully remove the case from the die.
- Inspect the case for proper neck tension and overall sizing.

3. Calibration:

- Calibration occurs as the cartridge case is pushed into the die.
- The neck of the case is calibrated from the inside when it is removed from the die.
- Adjust the position of the die using the lock nut for precise sizing.

Disposal Instructions

- Dispose of the die and any damaged components in accordance with local regulations.
- Do not dispose of the die or its components in household waste.
- Check with local recycling facilities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the use of the Full Length Die 1 1/4 Full Length Die 6,5x52 R, please refer to the product manual or consult with a qualified professional.

Your safety and satisfaction are our top priorities. Thank you for choosing our product.
