

Full Length Die 1 1/4 - Full Length Die 270 WSM

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Full Length Die 1 1/4 Full Length Die 270 WSM

Introduction

Thank you for choosing the Full Length Die 1 1/4 Full Length Die 270 WSM. This product is designed to resize cartridge cases safely and effectively. To ensure your safety and the proper functioning of the die, please read and follow these safety instructions carefully.

General Safety Guidelines

- Ensure safe use of the die by following all instructions provided in this guide.
- Be aware of potential risks associated with using reloading equipment and take necessary precautions.
- Check for product recalls and safety updates on the EU's Safety Gate platform.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including eye protection, when using the die.
- Keep the workspace clean and organized to prevent accidents.
- Do not attempt to modify the die or use it for purposes other than resizing cartridge cases.
- Ensure that the die is securely installed in the press before use.
- Handle all components with care to avoid injury.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is compatible with the Full Length Die 1 1/4.
- Securely attach the die to the press using the lock nut, ensuring it is properly aligned.
- Check that the expander and primer ejector pin are installed correctly and functioning.

2. Usage:

- Insert the cartridge case into the die to begin the resizing process.
- The neck of the case will be calibrated from the inside as it is moved out of the die.
- Ensure that the die is calibrated correctly to achieve the desired neck tension.
- If necessary, replace the expander and ejector pin with minimal effort.

3. PostUse:

- After use, clean the die to remove any debris or residue.
- Store the die in a safe and dry location, away from children and vulnerable individuals.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Ensure that no hazardous materials are present in the disposal process.
- Consider recycling components where possible.

Contact Information for Further Support

For any safety inquiries or additional support, please refer to the product manual or contact your local distributor. Always ensure that you have the correct article number for easy reordering of parts if necessary.

By following these safety instructions, you can ensure a safe and effective reloading experience with your Full Length Die 1 1/4 Full Length Die 270 WSM. Thank you for your attention to safety.
