

Full Length Die 1 1/4 - Full Length Die 300 WSM

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Full Length Die 1 1/4 Full Length Die 300 WSM

Introduction

Thank you for choosing the Full Length Die 1 1/4 Full Length Die 300 WSM. This guide provides important safety instructions and usage guidelines to ensure safe and effective operation of the product. Please read this manual carefully before using the die.

General Safety Guidelines

- Ensure the die is used only for its intended purpose: sizing cartridge cases.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when operating the die.
- Keep the work area clean and welllit to avoid accidents.
- Do not modify the die or use it for unintended purposes.
- Store the die in a dry, safe location when not in use.
- Regularly inspect the die for any signs of wear or damage before use.

Specific Safety Precautions for Use

- Ensure the die is securely installed in the press before use.
- Do not exceed the recommended pressure limits during operation to avoid damage or injury.
- Be cautious of sharp edges and moving parts when handling the die.
- Avoid direct contact with the die while it is in use to prevent burns or cuts.
- Do not leave the die unattended while in operation.

Instructions for Installation and Usage

1. Installation:

- Ensure that the press is turned off and disconnected from any power source.
- Securely attach the Full Length Die to the press using the lock nut to ensure stability during operation.
- Verify that the die is properly aligned and positioned for optimal performance.

2. Usage:

- Insert the cartridge case into the die, ensuring it is pushed all the way in.
- The calibration process will occur as the case is pushed into the die.
- After sizing, carefully remove the cartridge case from the die.
- Inspect the neck tension of the cartridge case to ensure it meets specifications.

3. Maintenance:

- Regularly clean the die to remove any debris or residue.
- If necessary, replace any worn components such as the expander or ejector pin.
- Consult the manual for instructions on replacing components.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of the die in regular household waste. Contact your local waste management facility for

proper disposal methods.

Contact Information for Further Support

For any inquiries regarding the Full Length Die 1 1/4 Full Length Die 300 WSM, please refer to the manual for guidance on accessing support resources.

Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective experience using the Full Length Die 1 1/4 Full Length Die 300 WSM. Always prioritize safety and consult the manual for any additional information or assistance. Thank you for your attention to these important safety measures.
