

## Full Length Die 1 1/4 - Full Length Die 8x64 S

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

## Safety Instructions

### Introduction

Thank you for choosing the Full Length Die 1 1/4 Full Length Die 8x64 S. This product is designed to help you size cartridge cases safely and effectively. Please read this safety instruction guide carefully to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

### General Safety Guidelines

- Ensure safe use of the Full Length Die by following all safety instructions.
- Be aware of potential hazards associated with the use of the die and take necessary precautions.
- Always use the product in accordance with the manufacturer's guidelines.
- Check for any recalls or safety updates on the EU's Safety Gate platform.
- Report any unsafe products or accidents to the appropriate authorities.

### Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using the die.
- Keep the workspace clean and free of obstructions to prevent accidents.
- Ensure that the die is securely mounted in the press before use.
- Do not exceed the recommended load limits for the die to avoid damage or injury.
- Always check the die for any signs of wear or damage before use. Replace any worn components immediately.
- Keep the die out of reach of children and vulnerable individuals to prevent accidents.

### Instructions for Installation and Usage

#### 1. Installation:

- Ensure your reloading press is compatible with the Full Length Die 1 1/4.
- Securely attach the die to the reloading press using the lock nut to set the correct position.
- Ensure that all components, including the expander and ejector pin, are properly installed.

#### 2. Usage:

- Insert the cartridge case into the die.
- Push the cartridge case into the die to initiate calibration.
- The neck of the case will be calibrated as it is moved out of the die, ensuring correct neck tension.
- If necessary, replace the expander and ejector pin with minimal effort by following the manufacturer's instructions.
- After use, clean the die to maintain optimal performance.

### Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Recycle packaging materials where possible to minimize environmental impact.
- Do not dispose of the die in regular household waste. Check with local authorities for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the Full Length Die 1 1/4 Full Length Die 8x64 S, please contact the manufacturer or refer to the product manual for further assistance.

By following these safety instructions, you can ensure a safe and effective reloading experience with your Full Length Die. Thank you for your attention to safety and compliance with the EU GPSR.
