

Full Length Die 1 1/4 - Full Length Die 350 Mag Rigby

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Full Length Die 1 1/4 Full Length Die 350 Mag Rigby Safety Instructions

Introduction

Thank you for choosing the Full Length Die 1 1/4 Full Length Die 350 Mag Rigby. This product is designed to help you size cartridge cases safely and effectively. Please read this safety instruction guide carefully to ensure proper use and maintenance of the die, and to understand your rights and responsibilities under the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the die is used only for its intended purpose, which is to size cartridge cases.
- Always inspect the die before use for any signs of damage or wear.
- Keep the die out of reach of children and vulnerable individuals.
- Use protective eyewear when operating the die to prevent injury from debris.
- Follow all local laws and regulations regarding the use and handling of ammunition components.

Specific Safety Precautions for Use

- *Calibration:* Ensure the die is properly calibrated before use. The neck of the cartridge case should be calibrated from the inside when it is pushed into the die.
- *Lock Nut:* Always set the correct position of the die in the press using the lock nut to prevent accidental movement during operation.
- *Replacement Parts:* If any components, such as the expander or primer ejector pin, are damaged, replace them immediately. All components have an article number for easy reordering.
- *Handling:* Handle the die with care to avoid injury. Do not force the cartridge case into the die; ensure it is aligned properly.
- *Storage:* Store the die in a dry and secure location when not in use to prevent damage and unauthorized access.

Instructions for Installation and Usage

1. Installation:

- Secure the die in the press by following the manufacturer's instructions.
- Use the lock nut to ensure the die is fixed in place.
- Verify that the expander and ejector pin are properly installed.

2. Usage:

- Insert the cartridge case into the die.
- Push the cartridge case into the die firmly but gently, ensuring proper alignment.
- Calibrate the neck of the cartridge case by moving it out of the die.
- Check the neck tension to ensure it meets your specifications.

3. Maintenance:

- Regularly clean the die to remove any debris or residue.
- Inspect the die and its components for wear and replace as necessary.

Disposal Instructions

- Dispose of the die and any damaged components in accordance with local regulations regarding metal and plastic waste.
- Do not dispose of the die in regular household waste. Check with local waste management facilities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the Full Length Die 1 1/4 Full Length Die 350 Mag Rigby, please refer to the product manual or contact your retailer for assistance.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience with your Full Length Die 1 1/4 Full Length Die 350 Mag Rigby. Always prioritize safety and compliance with local laws and regulations while using this product. Thank you for your attention to these guidelines.
