

Full Length Die 1 1/4 - Full Length Die 9,3x74 R

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Full Length Die 1 1/4 Full Length Die 9,3x74 R

Introduction

Thank you for choosing the Full Length Die 1 1/4 Full Length Die 9,3x74 R. This guide provides essential safety instructions and information to ensure safe and effective use of the product. Please read this manual carefully before use.

General Safety Guidelines

- Ensure that the die is used in accordance with the manufacturer's instructions to prevent accidents and injuries.
- Always handle the die with care, keeping it away from children and vulnerable individuals.
- Regularly inspect the die for any signs of damage or wear. Do not use a damaged die.
- Store the die in a dry, secure location when not in use.
- Be aware of your surroundings when using the die to avoid distractions and potential hazards.

Specific Safety Precautions for Use

- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when operating the die.
- Ensure that the die is properly secured in the press before use to prevent slippage.
- Do not exceed the recommended pressure settings for the die to avoid malfunctions.
- Avoid placing hands or fingers near the die during operation to prevent injury.
- Follow all local regulations and guidelines regarding the use of reloading equipment.

Instructions for Installation and Usage

1. Installation:

- Carefully read the product manual before installation.
- Secure the die into the press using the lock nut, ensuring it is tightly fastened.
- Check that the expander and ejector pin are correctly positioned and functional.

2. Usage:

- Insert the cartridge case into the die, ensuring it is aligned properly.
- Apply even pressure to push the cartridge case into the die.
- Observe the calibration process as the neck of the case is adjusted.
- Once the process is complete, carefully remove the cartridge case from the die.
- If necessary, replace worn components such as the expander or ejector pin with minimal effort.

Disposal Instructions

- Dispose of the die and any components in accordance with local regulations.
- Do not dispose of the die in regular household waste. Instead, consider recycling options for metal components.
- Follow any specific disposal instructions provided by local authorities to ensure environmental safety.

Contact Information for Further Support

For any inquiries regarding safety, usage, or to report unsafe products, please refer to the relevant local authorities or the EU's Safety Gate platform for updates on product recalls and safety alerts.

Thank you for your attention to these safety instructions. Your safety and satisfaction are our top priorities.
