

## Full Length Die 1 1/4 - Full Length Die 416 Rem Mag

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Full Length Die 1 1/4 Full Length Die 416 Rem Mag Safety Instruction Guide

## Introduction

Thank you for choosing the Full Length Die 1 1/4 Full Length Die 416 Rem Mag. This product is designed to help you size cartridge cases safely and effectively. Please read this safety instruction guide thoroughly to ensure safe use and compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that you are familiar with the die before use.
- Always handle the die with care to avoid injuries.
- Keep the die out of reach of children and vulnerable individuals.
- Regularly inspect the die for any signs of wear or damage before each use.
- Store the die in a secure location when not in use.

## Specific Safety Precautions for Use

- Always wear appropriate safety gear, such as safety glasses, when using the die.
- Do not exceed the maximum pressure limits specified for your cartridge cases.
- Ensure that the die is securely mounted in the press before use.
- Do not attempt to modify or repair the die beyond the manufacturer's recommendations.
- When replacing components such as the expander or ejector pin, ensure that you follow the instructions carefully to avoid accidents.

## Instructions for Installation and Usage

### 1. Installation

- Securely mount the die in your reloading press using the lock nut.
- Ensure that the die is aligned properly with the press for optimal performance.
- If necessary, adjust the position of the die using the lock nut until it is in the correct position.

### 2. Usage

- Insert the cartridge case into the die, ensuring it is pushed fully into the die.
- The neck of the case will be calibrated as it is moved out of the die.
- Check the neck tension of the cartridge case to ensure it meets your specifications.
- If you need to replace the expander or ejector pin, follow the manufacturer's instructions for removal and installation.

## Disposal Instructions

- Dispose of the die and any damaged components in accordance with local regulations.
- Do not dispose of the die in regular household waste.
- Consider recycling options for metal components where applicable.

## Contact Information for Further Support

For any inquiries regarding safety, usage, or replacement parts, please refer to the manufacturer's manual or contact the authorized distributor in your region. Remember to check for updates and recall notices on the EU's

Safety Gate platform to stay informed about the safety of your product.

By following these guidelines and instructions, you can ensure a safe and effective experience with the Full Length Die 1 1/4 Full Length Die 416 Rem Mag. Thank you for your attention to safety!
