

Full Length Die 1 1/4 - Full Length Die 500 NE 3"

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Full Length Die 1 1/4 Full Length Die 500 NE 3"

Introduction

Thank you for choosing the Full Length Die 1 1/4 Full Length Die 500 NE 3". This guide provides essential safety instructions and usage information to ensure your safe and effective use of this product. Please read this guide carefully before using the die.

General Safety Guidelines

- Always ensure that the die is used in accordance with the manufacturer's instructions.
- Inspect the die for any damage or wear before each use. Do not use if damaged.
- Keep the die out of reach of children and vulnerable individuals.
- Use the die only for its intended purpose as described in this guide.
- Report any unsafe conditions or accidents to the relevant authorities.
- Stay informed about product recalls and safety updates via the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the die is securely mounted in the press before use to prevent accidents.
- Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves while operating the die.
- Avoid direct contact with moving parts during operation to prevent injury.
- Do not exceed the recommended specifications for cartridge cases to avoid malfunction.
- Ensure proper ventilation in the work area to avoid inhalation of any fumes or dust.
- Keep hands and other body parts clear of the die during operation.

Instructions for Installation and Usage

1. Installation:

- Securely attach the die to the press using the provided lock nut.
- Ensure that the die is aligned correctly for optimal operation.
- Check that all components, including the expander and ejector pin, are properly installed.

2. Usage:

- Insert the cartridge case into the die and ensure it is seated correctly.
- Operate the press slowly and steadily to allow for proper sizing of the cartridge case.
- After sizing, carefully remove the cartridge case from the die.
- If necessary, replace the expander and ejector pin using the designated article numbers for easy reordering.

3. Calibration:

- The die calibrates the neck of the case from the inside as it is pushed out of the die.
- Ensure that the die is calibrated correctly to achieve the desired neck tension.

Disposal Instructions

- Dispose of the die and any associated components in accordance with local regulations.
- Do not dispose of the die in regular household waste. Check with local waste management services for

proper disposal methods.

Contact Information for Further Support
