

## Full Length Die 1 1/4 - Full Length Die 700 H&H NE

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Full Length Die 1 1/4 Full Length Die 700 H&H NE Safety Instruction Guide

## Introduction

Thank you for choosing the Full Length Die 1 1/4 Full Length Die 700 H&H NE. This guide provides essential safety instructions to ensure the safe and effective use of this product. It is important to read and understand these instructions before using the die.

## General Safety Guidelines

- Always follow the manufacturer's instructions for use.
- Ensure that the die is used in a welllit and clean area to avoid accidents.
- Keep the die out of reach of children and unauthorized users.
- Regularly inspect the die for any signs of wear or damage before use.
- If you notice any defects, do not use the die and contact the manufacturer for assistance.
- Report any unsafe products or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Use the die only for its intended purpose, which is to size cartridge cases.
- Always wear safety goggles and protective gloves when handling the die.
- Ensure the die is securely mounted in the press before use.
- Do not exceed the recommended pressure settings when using the die.
- Avoid placing hands or fingers near moving parts during operation.
- Do not attempt to modify or disassemble the die without proper guidance.
- Follow the calibration instructions carefully to avoid incorrect sizing.

## Instructions for Installation and Usage

### 1. Installation:

- Clean the area where the die will be installed.
- Securely mount the die into the reloading press using the lock nut.
- Ensure that the die is set to the correct height for the cartridge case being used.

### 2. Calibration:

- Insert the cartridge case into the die.
- Push the case into the die until it is fully seated.
- The neck of the case will be calibrated from the inside as it is moved out of the die.
- Check the neck tension to ensure it meets specifications.

### 3. Operation:

- Follow the reloading press manufacturer's instructions for operating the press with the die.
- Monitor the operation closely and stop immediately if any unusual sounds or movements occur.
- After use, clean the die to remove any debris or residue.

## Disposal Instructions

- Dispose of the die in accordance with local regulations.
- If the die is damaged beyond repair, consider recycling the materials where possible.

- Do not dispose of the die in regular household waste.

## **Contact Information for Further Support**

For any questions or concerns regarding the Full Length Die 1 1/4 Full Length Die 700 H&H NE, please refer to the manufacturer's contact information provided in the product manual or packaging.
