

# Bench-Rest Neck Die 1 1/4 - Bench-Rest Neck Die 7mm SE v.H.

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of "bullet runout", there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# BenchRest Neck Die Safety Instruction Guide

## Introduction

Thank you for choosing the BenchRest Neck Die 1 1/4 for your reloading needs. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this manual carefully before use to understand the safety precautions and operational guidelines.

## General Safety Guidelines

- Always ensure that the BenchRest Neck Die is used in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the BenchRest Neck Die for any damage or wear before each use. Do not use if damaged.
- Use the product only for its intended purpose. Misuse can result in injury or product failure.
- Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using this product.
- Ensure that your working area is clean and free from obstructions to prevent accidents.

## Specific Safety Precautions for Use

- Always ensure that the die is securely attached to the reloading press before use.
- Check that the cartridge case is free from obstructions and defects prior to inserting it into the die.
- Avoid placing your hands near the moving parts of the reloading press during operation to prevent injury.
- Do not exceed the recommended load specifications for the bullets being used with the die.
- Be aware of the signs of bullet runout and take corrective action if necessary to maintain precision.
- Follow all local laws and regulations regarding ammunition reloading and handling.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that the reloading press is turned off and unplugged before installation.
- Attach the BenchRest Neck Die to the reloading press by threading it securely into the die holder.
- Adjust the die according to the manufacturer's specifications for the specific cartridge being used.

### 2. Usage:

- Prepare the cartridge cases by cleaning and inspecting them for defects.
- Insert the cartridge case into the die, ensuring it is seated properly.
- Operate the reloading press to initiate the seating operation. Monitor the process for any signs of resistance or malfunction.
- After seating the bullet, remove the cartridge case from the die and inspect for concentricity.
- If using a different bullet type, consider changing the seater head to improve concentricity.

## Disposal Instructions

- Dispose of any unused or damaged components of the BenchRest Neck Die in accordance with local waste disposal regulations.
- Do not dispose of the product in regular household waste. Check for recycling programs in your area.

## Contact Information for Further Support

For any inquiries or further assistance regarding the BenchRest Neck Die, please refer to the product manual or

contact the manufacturer directly. Ensure that you have the product details and your purchase information ready when seeking support.

## Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with the BenchRest Neck Die. Always prioritize safety and adhere to the guidelines provided in this manual. Thank you for choosing our product, and happy reloading!
