

Bench-Rest Neck Die 1 1/4 - Bench-Rest Neck Die 7mm PRC

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of "bullet runout", there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

BenchRest Neck Die Safety Instruction Guide

Introduction

Thank you for choosing the BenchRest Neck Die 1 1/4 for your reloading needs. This product is designed to provide precision in seating match bullets while ensuring the highest standards of safety. Please read this safety instruction guide carefully to understand how to use the die safely and effectively.

General Safety Guidelines

- Ensure that you are familiar with the operation of reloading equipment before using this product.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses, when using reloading tools.
- Keep the reloading area clean and free of obstructions to prevent accidents.
- Store all reloading components, including the BenchRest Neck Die, out of reach of children and pets.
- Be aware of the potential hazards associated with reloading, including the handling of powders and primers.
- Regularly check the BenchRest Neck Die for wear and damage. Do not use if damaged.

Specific Safety Precautions for Use

- Only use the BenchRest Neck Die with compatible cartridges. Refer to the manufacturer's specifications for compatibility.
- Ensure that the die is securely attached to the reloading press before use.
- Do not force the die or the cartridge case during the seating operation. If resistance is felt, stop and investigate the cause.
- Use the correct seater head for the bullet being used. This can significantly improve concentricity and reduce the risk of bullet runout.
- Always follow the manufacturer's recommendations for bullet types and weights when using the die.

Instructions for Installation and Usage

1. Installation

- Ensure that the reloading press is turned off and unplugged (if applicable).
- Remove any existing dies from the reloading press.
- Clean the threads of the die and the press to ensure a secure fit.
- Screw the BenchRest Neck Die into the reloading press until it is snug. Do not overtighten.

2. Usage

- Prepare your cartridge cases according to standard reloading practices.
- Insert the cartridge case into the shell holder of the reloading press.
- Adjust the die to achieve the desired seating depth. This may require some trial and error, especially with different bullet types.
- Place the bullet into the cartridge case and slowly raise the ram to seat the bullet.
- Inspect the finished cartridge for proper seating and concentricity before using it.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of reloading materials, such as powders or primers, in regular trash. Follow your local hazardous waste disposal guidelines.
- Ensure that all packaging materials are recycled or disposed of properly.

Contact Information for Further Support

For any questions or concerns regarding the BenchRest Neck Die, please refer to the product manual or contact the manufacturer directly for assistance. It is essential to have an EUbased contact for safety inquiries as per the EU General Product Safety Regulation (GPSR).

Conclusion

Your safety and satisfaction are our top priorities. By following these guidelines and instructions, you can ensure a safe and effective reloading experience with the BenchRest Neck Die. Always stay informed about safety recalls and updates through the EU's Safety Gate platform. Thank you for choosing our product!
