

# Bench-Rest Neck Die 1 1/4 - Bench-Rest Neck Die 7mm STW

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of “bullet runout”, there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Safety Instruction Guide for BenchRest Neck Die 1 1/4 and 7mm STW

## Introduction

Thank you for choosing the BenchRest Neck Die 1 1/4 and 7mm STW. This product is designed for precision in seating match bullets. To ensure safe and effective use, please read this safety instruction guide carefully. It contains important information regarding safety guidelines, precautions, and proper usage.

## General Safety Guidelines

- Ensure that you understand and follow all safety instructions provided in this guide.
- Always handle the product with care to prevent accidents and injuries.
- Keep the product out of reach of children and vulnerable individuals.
- Use the product only for its intended purpose as described in this manual.
- Regularly check for any wear or damage to the product before use.
- In case of any malfunction or if you suspect the product is unsafe, discontinue use immediately and seek assistance.

## Specific Safety Precautions for Use

- Always wear appropriate safety gear, such as safety glasses and gloves, when using the die.
- Ensure that the workspace is clean and free of obstructions before starting the operation.
- Do not exceed the recommended specifications for the die to prevent accidents or product failure.
- Be cautious of sharp edges and moving parts during installation and usage.
- When changing the seaterhead, ensure that the die is not connected to any power source.
- Avoid distractions while using the product to maintain focus and precision.

## Instructions for Installation and Usage

### 1. Installation

- Ensure that the workspace is clean and organized.
- Carefully remove the BenchRest Neck Die from its packaging.
- Attach the die securely to your reloading press following the manufacturer's instructions.
- Select the appropriate seaterhead for the bullet you will be using.
- Tighten the seaterhead securely to ensure proper function.

### 2. Usage

- Prepare your cartridge cases according to standard reloading practices.
- Insert the cartridge case into the die, ensuring it is properly aligned.
- Slowly and steadily operate the reloading press to seat the bullet.
- Check the bullet for proper seating and concentricity after each operation.
- If any issues arise, stop the operation immediately and inspect the die and components for damage.

## Disposal Instructions

- Dispose of the product in accordance with local regulations.
- If the product is damaged or no longer usable, ensure that it is disposed of safely to avoid potential hazards.
- Do not dispose of the product in regular household waste. Instead, seek out designated recycling or

disposal facilities.

## **Contact Information for Further Support**

For any questions or concerns regarding the BenchRest Neck Die, please refer to the manufacturer's contact information provided in the product manual or packaging.

## **Conclusion**

By following these safety instructions, you can help ensure a safe and effective experience with your BenchRest Neck Die 1 1/4 and 7mm STW. Always prioritize safety and seek assistance if you have any doubts or questions about the product. Thank you for your attention to these important guidelines.
