Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Safety Instruction Guide for Seater with Crimp 1 1/4 Seater with Crimp 6,5x64 Brenneke

## Introduction

Thank you for choosing the Seater with Crimp 1 1/4 Seater with Crimp 6,5x64 Brenneke. This product is designed for safely seating bullets with or without a crimp, ensuring accuracy and reliability in your reloading process. Please read this safety instruction guide carefully to ensure safe use and compliance with EU General Product Safety Regulations (GPSR).

## General Safety Guidelines

- Always handle ammunition and reloading equipment with care to prevent accidents.
- Ensure that the work area is clean, dry, and free from distractions.
- Store the product in a safe location, out of reach of children and unauthorized users.
- Regularly inspect the equipment for wear and damage before use.
- Follow all local laws and regulations regarding ammunition reloading.

## Specific Safety Precautions for Use

- Use only compatible bullet types with the seaterhead to avoid malfunctions.
- Always wear appropriate safety gear, including eye protection, when using the product.
- Do not exceed recommended pressures and loads as specified in reloading manuals.
- Avoid using the seaterhead if it is damaged or shows signs of wear.
- Ensure that the cartridge case is properly positioned before seating the bullet.
- Keep hands and body clear of the reloading press during operation.

## Instructions for Installation and Usage

### 1. Installation of the Seater Head:

- Ensure the reloading press is securely mounted on a stable surface.
- Choose the appropriate seaterhead for the bullet type you are using.
- Loosen the locking screw on the seaterhead and replace it with the selected seaterhead.
- Tighten the locking screw securely to prevent movement during operation.

### 2. Seating the Bullet:

- Place the cartridge case into the reloading press.
- Adjust the seater die to the desired depth for bullet seating.
- If crimping is desired, set the crimp adjustment according to your specifications.
- Operate the reloading press to seat the bullet firmly into the cartridge case.

### 3. PostUse Cleaning:

- After use, clean the seater and surrounding area to remove any debris or residue.
- Store the seater head and other components in a dry, safe place.

## Disposal Instructions

- Dispose of any damaged or worn components in accordance with local waste disposal regulations.
- Do not dispose of the product in regular household waste. Instead, check for local recycling programs or hazardous waste disposal sites.

## **Contact Information for Further Support**

For safety inquiries, product support, or further assistance, please refer to the contact information provided by your retailer or manufacturer.

## **Conclusion**

By following the guidelines and instructions outlined in this safety instruction guide, you can ensure the safe and effective use of the Seater with Crimp 1 1/4 Seater with Crimp 6,5x64 Brenneke. Always prioritize safety and compliance with regulations to enjoy a successful reloading experience.
