Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Seater with Crimp 1 1/4

Introduction

Thank you for choosing the Seater with Crimp 1 1/4. This product is designed to provide you with a reliable and efficient way to seat bullets accurately. To ensure your safety and the proper use of this product, please read and follow the guidelines outlined in this manual.

General Safety Guidelines

- Always read the manual before using the product.
- Ensure that the product is used in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the Seater is securely mounted before use to prevent accidents.
- Use protective eyewear when operating the Seater to safeguard against debris.
- Never exceed the recommended specifications for the bullet and cartridge.
- Avoid wearing loose clothing or jewelry that could get caught in the equipment.
- Do not attempt to modify or alter the Seater in any way.
- Always handle ammunition with care to prevent accidental discharge.

Instructions for Installation and Usage

1. Installation:

- Ensure that the work area is clean and free of any obstructions.
- Securely mount the Seater to a stable workbench or reloading press.
- Confirm that all components are in good condition and properly assembled.

2. Usage:

- Select the appropriate seater head for the bullet you are using to improve accuracy.
- Adjust the seating depth according to your specifications.
- If using the crimp feature, ensure the crimp is applied consistently to all cartridges.
- After seating, inspect the cartridges for proper seating and crimping.

Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- If the product is damaged beyond repair, follow local guidelines for disposal of metal and plastic components.
- Do not dispose of the product in regular household waste.

Contact Information for Further Support

For any inquiries or assistance regarding the Seater with Crimp 1 1/4, please refer to the manufacturer's contact

details provided on the product packaging or manual.
