

# Seater with Crimp 1 1/4 - Seater with Crimp 7mm STW

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Bullet Seater with crimp (Seat)

Our standard bullet seater guides the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Safety Instruction Guide for Seater with Crimp 1 1/4

## Introduction

Thank you for choosing the Seater with Crimp 1 1/4. This product is designed to assist in the precise seating of bullets, enhancing your reloading process. It is crucial to understand the safety guidelines and usage instructions to ensure a safe and efficient experience.

## General Safety Guidelines

- Always read and understand the user manual before using the product.
- Ensure that the workspace is clean, organized, and free from distractions.
- Keep the product out of reach of children and vulnerable individuals.
- Use personal protective equipment (PPE) such as safety glasses and gloves when handling ammunition components.
- Regularly inspect the product for any signs of wear or damage before use.
- Store the product in a dry, secure location when not in use.

## Specific Safety Precautions for Use

- Ensure that the bullet seater is compatible with the specific bullet and cartridge being used.
- Do not exceed the recommended crimp pressure as indicated in the user manual.
- Always secure the cartridge case properly in the seater to prevent accidents.
- Avoid using excessive force when seating bullets.
- If you experience any malfunction or unusual behavior during use, stop immediately and consult the manual.
- Never point the product at yourself or others during operation.

## Instructions for Installation and Usage

### Installation

1. **Preparation:** Ensure the workspace is clean and free from clutter.
2. **Select the Seater Head:** Choose the appropriate seater head for your bullet type.
3. **Attach the Seater Head:**
  - Unscrew the existing seater head from the main body.
  - Align the new seater head with the mounting point and screw it in securely.
4. **Check Alignment:** Ensure that the seater head is properly aligned and tightened.

### Usage

1. **Setup:**
  - Place the cartridge case into the seater.
  - Adjust the crimp setting according to the specifications for the bullet being used.
2. **Seating the Bullet:**
  - Gently lower the bullet into the cartridge case.
  - Apply consistent pressure to seat the bullet until it is firmly in place.
3. **Crimping (if applicable):**
  - If using the crimp feature, ensure the crimping mechanism is engaged.
  - Apply the recommended pressure to crimp the mouth of the cartridge case securely.
4. **Final Inspection:**
  - Inspect the seated bullet for proper depth and crimp.
  - Ensure there are no visible defects or irregularities.

## **Disposal Instructions**

- Dispose of any damaged or unusable components in accordance with local regulations.
- Do not dispose of any ammunition or reloading components in regular household waste.
- Contact local authorities or waste disposal facilities for guidance on proper disposal methods.

## **Contact Information for Further Support**

For any inquiries or further assistance regarding the Seater with Crimp 1 1/4, please consult the user manual or contact the manufacturer directly.

By following these safety guidelines and instructions, you can ensure a safe and effective experience while using the Seater with Crimp 1 1/4. Thank you for prioritizing safety in your reloading activities.
