Bullet Seater with crimp (Seat)

Our standard bullet seater guides the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Seater with Crimp 1 1/4 Seater with Crimp 7mm08 Rem

Introduction

Thank you for choosing the Seater with Crimp 1 1/4 Seater with Crimp 7mm08 Rem. This product is designed to assist you in seating bullets accurately and safely. It is essential to follow the safety guidelines outlined in this document to ensure safe use and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always read and understand the instructions before using the product.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of damage or wear. Do not use damaged products.
- In case of any malfunction or accident, stop using the product immediately and seek assistance.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses and gloves, when using the bullet seater.
- Ensure that the work area is clean and free from any obstructions.
- Do not exceed the recommended bullet seating specifications as indicated in the manual.
- Use the correct seater head for the bullet type to improve accuracy and reduce hazards.
- Never attempt to modify or alter the product in any way.
- Follow all local laws and regulations regarding the use of reloading equipment.

Instructions for Installation and Usage

1. Installation of Seater Head

- Select the appropriate seater head for the bullet type you are using.
- Unscrew the existing seater head using the provided tool.
- Align the new seater head and screw it into place securely.

2. Seating the Bullet

- Place the cartridge case into the seater.
- Ensure the bullet is positioned correctly in the case.
- Adjust the seating depth as required.
- Pull the handle smoothly to seat the bullet. Avoid excessive force.

3. Crimping the Cartridge

- If crimping is required, adjust the seater to the crimp position.
- Ensure the cartridge case is securely held in place.
- Apply a steady pull to crimp the mouth of the cartridge case.

4. PostUse Care

- After use, clean the seater to remove any debris or residue.
- Store the product in a dry, safe place away from children and pets.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in general waste if it contains hazardous materials.
- Consider recycling options where available.

Contact Information for Further Support

For any inquiries regarding safety or product issues, please consult the manual or the retailer from whom you purchased the product. Ensure to have your purchase details ready for assistance.

By following these guidelines, you can ensure safe and effective use of the Seater with Crimp 1 1/4 Seater with Crimp 7mm08 Rem. Always prioritize safety and compliance with the EU GPSR. Thank you for your attention to these important safety instructions.
