Bullet Seater with crimp (Seat)

Our standard bullet seater guides the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Safety Instruction Guide for Seater with Crimp 1 1/4 Seater with Crimp 300 WSM

## Introduction

Thank you for choosing the Seater with Crimp 1 1/4 Seater with Crimp 300 WSM. This guide provides essential safety information and instructions for the safe use of this product. Please read the entire guide carefully before using the product.

## General Safety Guidelines

- Ensure the product is used in accordance with the instructions provided in this manual.
- Always wear appropriate safety gear, including safety glasses and gloves, when operating the seater.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage before use.
- If you notice any defects or malfunctions, discontinue use immediately and seek assistance.

## Specific Safety Precautions for Use

- The Bullet Seater is designed for use with specific types of bullets. Ensure you are using the correct bullet type as specified in the manual.
- Do not exceed the recommended cartridge specifications when using the seater.
- Ensure the seaterhead is properly secured before use to prevent accidents.
- Avoid placing hands or fingers in the path of moving parts during operation.
- Always work in a wellventilated area to avoid inhalation of any fumes or dust generated during use.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that the workspace is clean and organized.
- Select the appropriate seaterhead for the bullet type you will be using.
- Attach the seaterhead to the main body of the bullet seater securely.
- Adjust the seating depth according to the specifications provided in the manual.

### 2. Usage:

- Place the cartridge case in the designated area of the seater.
- Insert the bullet into the case, ensuring it is aligned correctly.
- Adjust the crimping option if required, depending on whether you wish to crimp the cartridge case.
- Operate the seater according to the instructions provided, making sure to maintain a firm grip and steady pressure.
- After seating, inspect the cartridge for proper seating and crimping.

## Disposal Instructions

- Dispose of any unused or damaged cartridges and components in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check for local recycling programs or hazardous waste disposal options.
- Ensure that all materials are disposed of safely to prevent harm to the environment.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the Seater with Crimp 1 1/4 Seater with Crimp 300 WSM, please refer to the manufacturer's contact information provided in the product packaging or manual.

## **Conclusion**

By following these safety guidelines and instructions, you can ensure a safe and effective experience with your Seater with Crimp 1 1/4 Seater with Crimp 300 WSM. Thank you for your attention to safety, and enjoy your product!
