

# Seater with Crimp 1 1/4 - Seater with Crimp 375 Blaser Mag

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Bullet Seater with crimp (Seat)

Our standard bullet seater guides the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Safety Instruction Guide for Seater with Crimp 1 1/4 Seater with Crimp 375 Blaser Mag

## Introduction

Thank you for purchasing the Seater with Crimp 1 1/4 Seater with Crimp 375 Blaser Mag. This product is designed to provide you with accurate bullet seating for your reloading needs. To ensure your safety and the optimal performance of this product, please read and follow the safety instructions carefully.

## General Safety Guidelines

- Ensure that you are familiar with the operation of reloading equipment before use.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling ammunition and reloading equipment.
- Keep the workspace clean and organized to prevent accidents.
- Store the product in a dry, secure location away from children and unauthorized users.
- Regularly inspect the seater for wear and damage before use.
- Follow all local regulations and guidelines regarding ammunition reloading.

## Specific Safety Precautions for Use

- **Potential Hazards:**
  - Improper use may lead to misfires or cartridge damage.
  - Crimping incorrectly can result in bullets being seated too deeply or not securely, affecting performance and safety.
- **Avoiding Hazards:**
  - Always ensure that the bullet is properly aligned with the guide bushing before seating.
  - Do not exceed the recommended bullet seating depth for your specific cartridge.
  - Use only compatible bullets and cartridge cases as specified in the product manual.
  - Never attempt to modify the seater head or any other components without proper guidance.
- **Age Restrictions:**
  - This product is intended for use by individuals aged 18 and older. Keep out of reach of children.

## Instructions for Installation and Usage

- **Installation:**
  1. Ensure that the reloading press is securely mounted and stable.
  2. Attach the seater to the reloading press according to the manufacturer's instructions.
  3. Select the appropriate seater head for the bullet type you will be using and install it securely.
- **Usage:**
  1. Prepare your cartridge cases and ensure they are clean and free of debris.
  2. Insert the bullet into the cartridge case mouth.
  3. Adjust the seating depth according to your specifications.
  4. Engage the reloading press to seat the bullet. Ensure the bullet is guided properly by the bushing.
  5. If crimping is desired, adjust the crimping mechanism according to the manufacturer's guidelines.
  6. Inspect the seated bullet for proper seating depth and crimping before proceeding with further reloading steps.

## **Disposal Instructions**

- Dispose of any damaged or worn components according to local regulations.
- Do not throw away ammunition or reloading components in regular trash. Follow local guidelines for hazardous waste disposal.
- If the product is no longer usable, consider recycling components where applicable.

## **Contact Information for Further Support**

For any questions or concerns regarding the Seater with Crimp 1 1/4 Seater with Crimp 375 Blaser Mag, please refer to the product manual or contact the manufacturer directly. Ensure you have your product details ready for efficient assistance.

Thank you for choosing our product. We wish you safe and successful reloading!
