

Seater with Crimp 1 1/4 - Seater with Crimp 500 NE 3"

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Bullet Seater with crimp (Seat)

Our standard bullet seater guides the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Seater with Crimp 1 1/4

Introduction

Thank you for choosing the Seater with Crimp 1 1/4. This product is designed to provide you with a reliable and efficient way to seat bullets accurately. To ensure safe usage and compliance with European safety regulations, please read this safety instruction guide thoroughly before using the product.

General Safety Guidelines

- Always follow the manufacturer's instructions when using this product.
- Keep this product out of reach of children and vulnerable individuals.
- Inspect the product before each use for any signs of damage or wear.
- Use the product only for its intended purpose.
- In case of any malfunction or damage, discontinue use immediately and seek assistance.

Specific Safety Precautions for Use

- Ensure that the Seater is securely attached to a stable reloading press before use.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling ammunition components.
- Avoid placing fingers or hands near moving parts during operation.
- Do not exceed the recommended crimping force; excessive force may lead to product failure.
- Keep the working area clean and free from obstructions to prevent accidents.

Instructions for Installation and Usage

Installation

1. Prepare Your Workspace:

- Ensure that your reloading area is clean and welllit.
- Gather all necessary tools and components before starting.

2. Attach the Seater:

- Securely mount the Seater with Crimp onto your reloading press according to the manufacturer's instructions.
- Verify that the seaterhead is properly installed and tightened.

3. Adjust Crimp Settings:

- If using the crimp feature, adjust the crimp settings according to the specifications for your cartridge case.
- Consult the manual for guidance on different seaterhead options available.

Usage

1. Loading Bullets:

- Place the cartridge case into the press and ensure it is positioned correctly.
- Insert the bullet into the case mouth.

2. Seating the Bullet:

- Engage the press to begin seating the bullet.
- Monitor the process to ensure that the bullet is seated to the correct depth.

3. Applying Crimp (if desired):

- If crimping is required, follow the adjustments made earlier.
- Apply the crimp carefully, ensuring not to overcrimp.

4. Inspection:

- After seating and crimping, inspect the cartridge to ensure it meets safety and quality standards.

Disposal Instructions

- Dispose of any unused or defective components in accordance with local regulations.
- Do not dispose of ammunition or reloading components in regular household waste.
- Contact local authorities for guidance on safe disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the Seater with Crimp 1 1/4, please refer to the manufacturer's contact details provided in the product packaging or manual. Always ensure that you have the proper support when using this product.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience with the Seater with Crimp 1 1/4. Always prioritize safety and adhere to the guidelines provided to prevent accidents and ensure compliance with EU safety regulations. Thank you for your attention to these important safety practices.
