

# Bench-Rest-Seater 1 1/4 - Bench-Rest-Seater 6mm BR Rem

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of "bullet runout", there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# BenchRestSeater Safety Instruction Guide

## Introduction

Thank you for choosing the BenchRestSeater 1 1/4 and 6mm BR Rem. This product is designed to provide the highest precision in seating match bullets. To ensure safe and effective use of this product, please carefully read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Ensure that the BenchRestSeater is used only for its intended purpose of seating match bullets.
- Always operate the seater in a wellventilated area to avoid inhalation of any dust or debris.
- Keep the workspace clean and organized to prevent accidents or injuries.
- Store the BenchRestSeater in a dry place, away from moisture, to prevent corrosion and damage.
- Regularly inspect the product for wear and tear. Replace any damaged components immediately.

## Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the BenchRestSeater.
- Ensure that the seaterhead is securely attached before use to prevent accidents.
- Do not exceed the recommended specifications for bullet types and sizes, as this may lead to malfunctions or unsafe conditions.
- Never attempt to modify or alter the BenchRestSeater, as this can compromise safety and performance.
- Keep hands and other body parts clear of moving parts during operation to prevent injury.
- If you experience any unusual noises or resistance while using the seater, stop immediately and inspect for issues.

## Instructions for Installation and Usage

### 1. Setup:

- Place the BenchRestSeater on a stable work surface.
- Ensure that the work area is clear of any obstacles or distractions.

### 2. Attaching the SeaterHead:

- Select the appropriate seaterhead based on the bullet type you are using.
- Align the seaterhead with the mounting point on the BenchRestSeater.
- Securely fasten the seaterhead in place according to the manufacturer's instructions.

### 3. Loading the Cartridge:

- Insert the cartridge case into the guide sleeve of the BenchRestSeater.
- Ensure that the cartridge is seated properly for optimal axial guidance.

### 4. Seating the Bullet:

- Carefully place the bullet into the cartridge case.
- Gently lower the seaterhead onto the bullet.
- Apply steady pressure to seat the bullet into the cartridge case. Avoid excessive force.

### 5. Final Inspection:

- After seating, inspect the cartridge for proper bullet seating and concentricity.

- Store the completed cartridges in a safe and organized manner.

## **Disposal Instructions**

- Dispose of any defective or damaged components according to local waste disposal regulations.
- Do not dispose of the BenchRestSeater or its parts in regular household waste.
- Consider recycling options for metal and plastic components where available.

## **Contact Information for Further Support**

For any questions or concerns regarding the BenchRestSeater, please refer to the manufacturer's contact information provided in the product manual or packaging. It is important to have access to support for safety inquiries and product assistance.

By following these safety instructions, you can ensure a safe and effective experience with the BenchRestSeater. Thank you for your attention to safety.
