

# Bench-Rest-Seater 1 1/4 - Bench-Rest-Seater 300 WSM

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of “bullet runout”, there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# BenchRestSeater 1 1/4 Safety Instructions

## Introduction

Thank you for choosing the BenchRestSeater 1 1/4. This product is designed to provide the highest precision in seating match bullets. To ensure safe and effective use, please read this safety instruction guide carefully. It contains important information about product safety, usage precautions, and disposal instructions.

## General Safety Guidelines

- Ensure that the BenchRestSeater is used only for its intended purpose.
- Always handle the product with care and keep it out of reach of children.
- Regularly inspect the seater for any signs of wear or damage before use.
- If you notice any defects or irregularities, discontinue use immediately and seek assistance.
- Follow all local laws and regulations regarding the use of reloading equipment.
- Use personal protective equipment (PPE) such as safety glasses and gloves when handling components.
- Report any unsafe products or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- Before using the BenchRestSeater, ensure that the work area is clean and free from distractions.
- Always secure the cartridge case properly in the seating operation to avoid accidents.
- Use the correct seater head for the bullet type being used to improve concentricity and safety.
- Do not exceed the recommended specifications for bullet seating.
- Avoid using the product in wet or humid conditions to prevent electrical hazards.
- Ensure that all tools and accessories are compatible with the BenchRestSeater.
- Always follow the manufacturer's guidelines for maintenance and care.

## Instructions for Installation and Usage

### 1. Installation:

- Choose a stable and flat surface for installation.
- Attach the BenchRestSeater securely to the workbench or reloading station.
- Ensure that all components, including the guide sleeve and seater head, are properly fitted.
- Check that the thread size (1 1/4) matches your equipment.

### 2. Usage:

- Prepare the cartridge case by ensuring it is clean and free from debris.
- Select the appropriate seater head based on the bullet type.
- Insert the cartridge case into the guide sleeve.
- Position the bullet in the seater head and align it with the cartridge case.
- Apply steady pressure to seat the bullet into the cartridge case, ensuring perfect axial guidance.
- Inspect the completed cartridge for concentricity and proper seating.

## Disposal Instructions

- Dispose of any defective or damaged parts in accordance with local regulations.
- Recycle packaging materials whenever possible.
- Do not dispose of the product in regular household waste. Instead, follow local electronic waste disposal guidelines.

## **Contact Information for Further Support**

For any questions or concerns regarding the BenchRestSeater 1 1/4, please refer to the product manual for detailed instructions and support information.

Thank you for your attention to these safety guidelines. Proper use and care of the BenchRestSeater will help ensure a safe and effective reloading experience.
