

# Bench-Rest-Seater 1 1/4 - Bench-Rest-Seater 375 Ruger

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of "bullet runout", there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# BenchRestSeater 1 1/4 Safety Instruction Guide

## Introduction

Thank you for choosing the BenchRestSeater 1 1/4 for your precision bullet seating needs. This product is designed to provide the highest level of accuracy when seating match bullets. It is essential to follow the safety guidelines outlined in this manual to ensure safe and effective use of the product.

## General Safety Guidelines

- Ensure that the BenchRestSeater is used only by individuals who are familiar with firearm safety and reloading practices.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading equipment.
- Keep the work area clean and free of obstructions to prevent accidents during use.
- Store the BenchRestSeater in a secure location, out of reach of children and unauthorized users.
- Regularly inspect the product for any signs of wear or damage before use. Do not use if damaged.
- Be aware of the potential hazards associated with reloading ammunition, including the handling of powders and primers.

## Specific Safety Precautions for Use

- Always follow the manufacturer's instructions when using the BenchRestSeater.
- Ensure that the cartridge case is properly positioned in the guide sleeve before beginning the seating operation.
- Avoid excessive force when seating bullets to prevent damage to the bullet and ensure uniformity.
- Use the appropriate seater head for the bullet being used, as this can significantly improve concentricity and safety.
- Do not exceed the recommended load specifications for the ammunition being reloaded.
- In case of any malfunction or irregularity during use, stop immediately and inspect the equipment.

## Instructions for Installation and Usage

### 1. Installation:

- Secure the BenchRestSeater to a stable work surface using appropriate mounting hardware.
- Ensure that the seater head is properly attached and tightened before use.

### 2. Usage:

- Select the appropriate seater head based on the bullet type you are using.
- Adjust the seating depth according to your specifications.
- Insert the cartridge case into the guide sleeve, ensuring it is properly aligned.
- Place the bullet into the case mouth, ensuring it is seated correctly.
- Apply steady, even pressure on the handle to seat the bullet into the cartridge case.
- After seating, remove the cartridge case and inspect the bullet for uniformity and concentricity.
- Repeat the process for additional cartridges, taking care to maintain consistent pressure and alignment.

## Disposal Instructions

- Dispose of any damaged or worn parts of the BenchRestSeater in accordance with local regulations.
- Do not dispose of any reloading materials, such as powders or primers, in regular trash. Follow local hazardous waste disposal guidelines.

- When disposing of the entire product, ensure it is done in a manner that prevents unauthorized access or use.

## **Contact Information for Further Support**

For any questions or concerns regarding the use and safety of the BenchRestSeater, please refer to the manufacturer's website or contact your local distributor for assistance.
