The MDT ACC Premier GEN2 Chassis System is the ultimate upgrade for precision rifle enthusiasts, building on the foundation of the industry-defining ACC Premier. Incorporating advancements from the ACC Elite, the GEN2 boasts superior features that elevate your shooting experience:

1. **Enhanced Stability:** The taller integrated barricade stop and a thicker, more rigid forend provide unmatched stability on barricades and PRS props, ensuring precise and consistent shots.
2. **Customizable Balance:** Achieve the perfect rifle balance for faster target acquisition and precise follow-up shots. The chassis is compatible with a variety of weights, allowing you to fine-tune your setup to suit your shooting style.
3. **Compact and Versatile Forend:** Designed with a 15" forend, the GEN2 comfortably accommodates barrels starting at 17". This compact design makes it an excellent choice for the growing rimfire competition shooting scene.
4. **NV and Control Bridge System Compatibility:** Drilled holes along the top of the forend allow seamless integration with MDT's NV and Control Bridge system, providing expanded customization options.
5. **Integrated ARCA Rail:** The full-length integrated ARCA rail offers maximum versatility for mounting bipods, tripods, and other accessories, enhancing your rifle's stability during competition.
