

Lead Sled Weight Reservoir, DFT 3/LS4 2 pack

[Reloading](#) > [Bullet Casting](#) > [Lead Alloy](#)

Adding weight to your Lead Sled Shooting Rest has never been easier with the Lead Sled Weight Reservoirs. Designed for convenience, these reservoirs feature a leakproof bladder housed inside a tough 600D nylon outer shell, ensuring durability and long-term use.

The wide-mouth opening allows for easy filling with water, sand, or gravel, while the collapsible design folds away when not in use. Compatible with both the Lead Sled 4 and Lead Sled DFT 3, each rest can hold two reservoirs in its adjustable weight tray. The Standard Reservoir holds 1.2 gallons per bag—adding up to 9kg. of water or 14kg. of sand for enhanced recoil reduction.

Lead Sled Weight Reservoir Safety Instructions

Introduction

Thank you for choosing the Lead Sled Weight Reservoir. This product is designed to enhance your shooting experience by providing additional weight for your Lead Sled Shooting Rest. To ensure safe and effective use, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always ensure that the Lead Sled Weight Reservoir is used in accordance with the manufacturer's instructions.
- Inspect the product for any signs of damage before use. Do not use if damaged.
- Keep the product out of reach of children and pets to prevent accidents.
- Use the product only for its intended purpose, as described in the product manual.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about product recalls and safety updates through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the weight reservoirs are securely fitted in the weight tray of the Lead Sled Shooting Rest before use.
- Do not overfill the reservoirs beyond their capacity of 1.2 gallons (approximately 9 kg of water or 14 kg of sand).
- Avoid using sharp objects or tools that may damage the bladder or outer shell of the reservoir.
- When filling the reservoirs, do so in a controlled environment to prevent spills or accidents.
- If using sand or gravel, ensure that the materials are clean and free from debris to avoid contamination or damage to the product.

Instructions for Installation and Usage

1. Filling the Reservoirs:

- Open the widemouth opening of the reservoir.
- Fill with water, sand, or gravel up to the maximum capacity of 1.2 gallons.
- Ensure the bladder is sealed to prevent leaks.

2. Installing the Reservoirs:

- Locate the adjustable weight tray on your Lead Sled Shooting Rest.
- Place each filled reservoir securely in the weight tray.
- Use the tensioning strap to secure the reservoirs in place.

3. Using the Lead Sled:

- Ensure the Lead Sled Shooting Rest is on a stable surface.
- Position your firearm according to the manufacturer's guidelines.
- Always follow safe shooting practices when using the Lead Sled.

4. After Use:

- Remove the reservoirs from the weight tray if not in use.
- Store the reservoirs in a dry place to prevent damage.

Disposal Instructions

- Dispose of the Lead Sled Weight Reservoirs in accordance with local regulations.
- If the product is damaged and cannot be reused, consider recycling the materials where possible.
- Do not dispose of the product in regular household waste if it contains hazardous materials.

Contact Information for Further Support

For safety inquiries or further assistance, please refer to the manufacturer's website or contact your local retailer.

By following these safety instructions, you can ensure a safe and enjoyable experience with your Lead Sled Weight Reservoir. Thank you for your attention to safety!
