

# Draupnir Folding Knife

The Draupnir Folding Knife blends high-performance materials, refined design, and mythic inspiration into a tool that does more than cut - it defines readiness with its legality as a carry knife in Germany (more later).

At its core lies a blade crafted from CPM-S35VN stainless steel, chosen for its outstanding edge retention, corrosion resistance, and all-around reliability. Whether it's daily utility or unexpected demands, the blade delivers with consistent precision.

But it's the handle that sets this knife apart, made from forged carbon fiber, directly inspired by the same material we use in our Yggdrasil Precision Tripod. Lightweight, incredibly strong, and with a unique marbled structure, each handle is visually one-of-a-kind.

Despite its modern and tactical appearance, it is legally classified as a two-handed knife - making it fully compliant for everyday carry in Germany. This intelligent design means you don't have to compromise between aesthetics, functionality, and legality. A deep-carry pocket clip keeps the knife discreet and ready.
