

Marlin 357 Mag Comet Brake Steel (Mayodan Nc Barrel Stamp) - Marlin 1894 357 Mag Brake for SBL Stainless (Mayodan, NC barrel stamp)

[Rifle Parts](#) > [Muzzle Devices](#) > [Compensators & Muzzle Brakes](#)

The "Comet Brake" is designed to be a slim, flush fit and aggressive rifle muzzle brake that works especially well to reduce felt recoil.

Each brake is made to match the exact OD (outer diameter) and the thread pitch (tpi) of the rifle make/model that's listed.

Your rifle MUST be threaded to use this brake.

If you plan to get your rifle threaded by a gunsmith, provide them with the exact specs listed.

Marlin 357 Mag Comet Brake Steel Safety Instructions

Introduction

Thank you for choosing the Marlin 357 Mag Comet Brake Steel. This product is designed to enhance your shooting experience by reducing recoil and muzzle flash. To ensure safe and effective use of this muzzle brake, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always handle firearms and accessories with care and respect.
- Ensure that your rifle is unloaded before installing or handling the muzzle brake.
- Only use the Comet Brake with rifles that are specifically designed for it.
- Store the muzzle brake in a safe place, out of reach of children and unauthorized users.
- Regularly inspect the muzzle brake for signs of wear or damage before use.
- Follow all local laws and regulations regarding the use of firearms and accessories.

Specific Safety Precautions for Use

- The Comet Brake is designed for specific rifle make/models. Ensure compatibility before use.
- Your rifle must be threaded to use this brake. Consult a qualified gunsmith if you are unsure.
- Always wear appropriate eye and ear protection when shooting.
- Be aware of your surroundings and ensure a safe shooting environment.
- Do not modify the muzzle brake or use it in any way not intended by the manufacturer.
- If you experience any unusual sounds or performance issues while using the brake, cease use immediately and consult a professional.

Instructions for Installation and Usage

1. Preparation:

- Ensure that your rifle is unloaded and pointed in a safe direction.
- Gather the necessary tools, including a wrench and blue Loctite.

2. Installation:

- Align the Comet Brake with the threaded end of your rifle barrel.
- Hand tighten the brake onto the barrel until snug.
- Apply a small amount of blue Loctite to the threads to secure the brake.
- Avoid overtightening. No indexing or torque specifications are required.

3. Usage:

- Before each use, inspect the brake for any signs of damage or wear.
- When ready to shoot, ensure that all safety measures are in place, including protective gear.
- Maintain a firm grip on your rifle to manage recoil effectively.

4. PostUse:

- After shooting, clean the muzzle brake as per the manufacturer's recommendations.
- Store the brake in a safe location when not in use.

Disposal Instructions

- Dispose of the Comet Brake in accordance with local regulations.
- If the brake is damaged or no longer usable, contact your local waste management facility for proper disposal methods.

Contact Information for Further Support

For any inquiries or concerns regarding the Marlin 357 Mag Comet Brake Steel, please consult with your retailer or a qualified gunsmith. Always ensure that you are following the latest safety guidelines and regulations applicable in your area.

By adhering to these safety instructions and guidelines, you can enjoy the benefits of the Marlin 357 Mag Comet Brake Steel while ensuring a safe shooting experience. Thank you for your attention to safety.
