

Ballistic Shooting Glasses - Bronze Mirror Replacement Lens

[Shooting Accessories](#) > [Ear & Eye Protection](#) > [Shooting Glasses](#)

The GTS Replacement Lenses are engineered specifically for the GTS Ballistic Shooting Glasses, allowing you to adapt your eyewear to changing light conditions without compromising protection.

Each lens is certified to EN 166 CE with a 1F impact rating, providing reliable resistance against high-speed particles and impact hazards encountered on the range or in demanding outdoor environments.

All lenses feature an advanced Revo mirror coating, a multi-layer reflective treatment applied to the outer lens surface. This coating serves multiple performance functions:

- Reduces glare in bright environments
- Reflects excess sunlight away from the eye
- Improves visual comfort during extended use
- Enhances contrast and clarity
- Minimizes eye fatigue in high-light conditions

Unlike basic tinted lenses, the Revo coating works by selectively reflecting specific wavelengths of light while allowing optimal visible light transmission. The result is sharper visual perception, improved depth awareness, and reduced strain - especially during prolonged shooting sessions in direct sunlight.

Available lens options:

- Smoke Graphite: Ideal for strong sunlight and open outdoor ranges
- Blue Mirror: Optimized for glare-heavy environments and reflective surfaces
- Bronze Mirror: Enhances contrast and definition in variable light conditions

The lenses are easy to install and allow you to quickly configure your eyewear setup for the environment at hand.

Ballistic Shooting Glasses Safety Instruction Guide

Introduction

Thank you for choosing the GTS Ballistic Shooting Glasses with Bronze Mirror Replacement Lens. These glasses are designed to provide optimal protection and visual comfort during shooting activities. This safety instruction guide is intended to help you use the product safely, ensuring compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the glasses are suitable for your intended use and comply with safety standards.
- Always check the lenses for scratches or damage before each use.
- Do not use the glasses if they are cracked or broken.
- Keep the glasses out of reach of children and vulnerable individuals.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always wear the ballistic shooting glasses when engaging in shooting activities.
- Ensure that the lenses are properly installed and secured before use.
- Avoid exposing the glasses to extreme temperatures or harsh chemicals.
- Do not attempt to modify or alter the lenses or frames.
- Use the appropriate lens color for the lighting conditions:
 - Smoke Graphite: Ideal for strong sunlight and open outdoor ranges.
 - Blue Mirror: Optimized for glare-heavy environments and reflective surfaces.
 - Bronze Mirror: Enhances contrast and definition in variable light conditions.

Instructions for Installation and Usage

1. Lens Installation:

- Gently remove the current lens from the frame by following the manufacturer's instructions.
- Align the new lens with the frame, ensuring it fits securely.
- Press gently around the edges to lock the lens in place.

2. Wearing the Glasses:

- Adjust the glasses to fit comfortably on your face.
- Ensure that they sit snugly but do not pinch or cause discomfort.
- Check visibility through the lenses to confirm clarity and comfort.

3. Cleaning and Maintenance:

- Use a soft, lintfree cloth to clean the lenses.
- Avoid using abrasive materials or harsh chemicals that may damage the lens coating.
- Store the glasses in a protective case when not in use to prevent scratches and damage.

Disposal Instructions

- Dispose of the glasses in accordance with local regulations.
- If the glasses are damaged or no longer usable, recycle them if possible.
- Do not throw the glasses in general waste if they contain hazardous materials.

Contact Information for Further Support

For any queries or concerns regarding the GTS Ballistic Shooting Glasses, please contact the manufacturer or your local retailer for assistance.
