

1,5-6x42 Zenith - 1.5-6x42 Zenith LM FD7 1cm cw Posicon CT / Posicon CT

[Optics & Mounting](#) > [Scopes](#) > [Rifle Scopes](#)

The 1.5-6x42 Zenith from Schmidt and Bender is a premium all-round riflescope engineered for versatility across driven hunts, stalking, and stand hunting — whether in daylight, twilight, or low-light conditions. Its wide field of view at the lowest magnification and crystal-clear optics allow for lightning-fast target acquisition in dynamic scenarios.

With a magnification range of 1.5–6× and a 42 mm objective lens, the Zenith delivers a large exit pupil and an eye relief of 85 mm, ensuring rapid sight alignment and maximum comfort across shooting positions. Built around a robust 30 mm main tube, the scope guarantees durability and precision. The first focal plane (FFP) reticle maintains consistent scaling at all magnifications, while illuminated reticle options such as the FD7 provide excellent visibility even in challenging lighting. Its field of view spans 21.7 m to 6.7 m at 100 m, offering both situational awareness and precision for longer shots. Key Specifications:

NO IMAGE
AVAILABLE

Magnification: 1.5–6×

Objective Lens Diameter: 42 mm

Main Tube Diameter: 30 mm

Reticle: First Focal Plane (illuminated versions available)

Eye Relief: 85 mm

Field of View: 21.7–6.7 m @ 100 m

Weight: approx. 600 g

Handcrafted in Germany, the 1.5-6x42 Zenith combines traditional craftsmanship with modern optical engineering. It's the perfect choice for hunters seeking reliability, precision, and versatility — a true benchmark in the premium hunting scope class.

Attributes

- Name: [1.5-6x42 Zenith LM FD7 1cm cw Posicon CT / Posicon CT](#)
- Manufacturer: [SCHMIDT U. BENDER](#)
- Product no.: EU2015724
- Mfr. No.: 761-811-707
- Colour: Black
- Delivery weight: 2kg
- Shipping height: 100mm
- Shipping width: 100mm
- Shipping length: 450mm
- EAN: 4060537017700

Safety Instruction Guide for 1.56x42 Zenith Riflescope

Introduction

Thank you for choosing the 1.56x42 Zenith Riflescope by Schmidt and Bender. This guide provides essential safety instructions to ensure the safe and effective use of your product. Please read this guide carefully before using the riflescope to understand its features, potential hazards, and safety precautions.

General Safety Guidelines

- Always handle the riflescope with care to prevent damage and ensure safe operation.
- Use the riflescope only for its intended purpose: precision shooting and hunting.
- Ensure that all users are trained in the safe handling and operation of firearms.
- Keep the riflescope out of reach of children and vulnerable individuals.
- Regularly inspect the riflescope for any signs of damage or wear before use.
- Follow all local laws and regulations regarding the use of firearms and optics.

Specific Safety Precautions for Use

- **Avoid Eye Injury:** Always maintain a safe distance from the eyepiece when using the riflescope to prevent eye injury, especially when using high magnifications.
- **Proper Mounting:** Ensure the riflescope is securely mounted to the firearm. A loose mount can lead to misalignment and unsafe shooting conditions.
- **Check for Obstructions:** Before taking a shot, ensure that there are no obstructions in the line of sight that could cause ricochet or injury.
- **Use in Safe Locations:** Only use the riflescope in designated shooting ranges or safe outdoor locations where shooting is permitted.
- **Weather Considerations:** Avoid using the riflescope in extreme weather conditions that could affect visibility or the operation of the scope.
- **Illumination Caution:** When using illuminated reticles, be mindful of the brightness setting to avoid distracting yourself or others.

Instructions for Installation and Usage

1. Installation:

- Securely mount the riflescope onto the firearm using the appropriate rings and bases.
- Ensure that the main tube is level and aligned with the bore of the firearm.
- Tighten all screws and mounts according to the manufacturer's specifications to prevent loosening during use.

2. Usage:

- Adjust the magnification by rotating the magnification ring to the desired level (1.5x to 6x).
- To focus the reticle, adjust the diopter setting according to your vision.
- When aiming, ensure a proper cheek weld and maintain a stable shooting position.
- Use the eye relief of 85 mm to ensure comfort and safety while viewing through the scope.
- Observe the field of view (21.7 m to 6.7 m at 100 m) to maintain situational awareness.

Disposal Instructions

- Dispose of the riflescope in accordance with local regulations regarding electronic waste and optical devices.
- Do not dispose of the riflescope in regular household waste.
- Check with local waste management authorities for specific disposal guidelines.

Contact Information for Further Support

For any questions or concerns regarding the safety and usage of your 1.56x42 Zenith Riflescope, please refer to the manufacturer's website or customer service for assistance.

Conclusion

By following these safety instructions, you can ensure a safe and enjoyable experience with your 1.56x42 Zenith Riflescope. Always prioritize safety and responsibility when using firearms and optics. Thank you for your commitment to safe shooting practices.
