

3-20x50 PM II Ultra Short - 5-20x50 PM II Ultra Short LPI MSR2 1cm cw DT35 MTC LT / ST ZC CT

[Optics & Mounting](#) > [Scopes](#) > [Rifle Scopes](#)

The 3-20×50 PM II Ultra Short from Schmidt and Bender is a compact yet powerful riflescope engineered for high-performance engagements across medium to long distances. With its 3–20× magnification range and a 50 mm objective lens, it offers outstanding optical clarity and flexibility in a streamlined form factor.

Constructed around a robust 34 mm main tube, it maintains a length of approximately 340 mm and weighs around 900 g, striking an excellent balance between size and performance—ideal for mounting on compact platforms without compromising optics.

Its field of view spans roughly 13.0–2.1 m at 100 m, providing broad situational awareness at lower magnification and refined detail at the high end. The exit pupil ranges around 11.4–2.5 mm, and the eye relief is approximately 90 mm, supporting comfortable shooting in varied positions while maintaining strong light-gathering even as light fades.

Advanced features include first focal plane (FFP) illuminated reticle options, side parallax adjustment (from approx. 25 m to infinity), and a low-profile elevation turret optimized for tactical precision.

Key Specifications:

Magnification: 3–20×
Objective Lens Diameter: 50 mm
Main Tube Diameter: 34 mm
Field of View: approx. 13.0–2.1 m @100 m
Exit Pupil: approx. 11.4–2.5 mm
Eye Relief: approx. 90 mm
Length: approx. 340 mm
Weight: approx. 900 g

With precision optics, compact build, and rugged mechanical design, the 3-20×50 PM II Ultra Short is built for serious shooters who demand premium performance in a versatile package.

Attributes

- Name: [5-20x50 PM II Ultra Short LPI MSR2 1cm cw DT35 MTC LT / ST ZC CT](#)
- Manufacturer: [SCHMIDT U. BENDER](#)
- Product no.: EU2015806
- Mfr. No.: 173-911-862-F2-E9
- Colour: Black
- Delivery weight: 2kg
- Shipping height: 100mm
- Shipping width: 100mm
- Shipping length: 450mm
- EAN: 4060537063738

Safety Instruction Guide for the 3-20x50 PM II Ultra Short Riflescope

Introduction

Thank you for choosing the 3-20x50 PM II Ultra Short Riflescope from Schmidt and Bender. This guide provides essential safety instructions to ensure the safe and effective use of your riflescope. Please read this document carefully to understand the safety guidelines, precautions, and proper usage of the product.

General Safety Guidelines

- Always handle the riflescope with care to avoid damage.
- Ensure that the riflescope is mounted securely to prevent accidents during use.
- Keep the riflescope out of reach of children and vulnerable individuals.
- Regularly inspect the riflescope for any signs of damage or wear.
- Do not use the riflescope if it appears damaged or malfunctioning.
- Follow all local laws and regulations regarding the use of firearms and optics.
- Store the riflescope in a dry and cool environment to maintain its functionality.

Specific Safety Precautions for Use

- **Avoid Eye Injury:** Always maintain a safe distance from the riflescope when in use. Use appropriate eye protection when shooting.
- **Check for Parallax Adjustment:** Ensure the side parallax adjustment is set correctly based on your shooting distance to avoid misalignment.
- **Use Correct Magnification:** Adjust the magnification according to the distance of your target to maintain clarity and focus.
- **Secure Mounting:** Ensure that the riflescope is mounted on a stable platform to prevent movement during use.
- **Light Conditions:** Be aware of light conditions; do not use the riflescope in extreme brightness without appropriate filters, as this may impair vision.
- **Regular Maintenance:** Clean the lenses with a soft, lintfree cloth to avoid scratches and maintain clarity.

Instructions for Installation and Usage

1. Mounting the Riflescope:

- Select a suitable mounting platform for your riflescope.
- Align the riflescope with the firearm's rail and secure it using the provided mounting rings.
- Ensure that the riflescope is level and properly tightened to avoid movement during use.

2. Adjusting the Scope:

- Use the magnification adjustment ring to set the desired magnification level.
- Adjust the side parallax knob to match the distance of your target (from approx. 25 m to infinity).
- Set the elevation and windage turrets to zero before making adjustments for accurate shooting.

3. Using the Riflescope:

- Position your eye approximately 90 mm away from the eyepiece for optimal viewing.
- Look through the scope and adjust the focus if necessary.
- Maintain a stable shooting position to ensure accuracy.

4. After Use:

- Clean the exterior and lenses of the riflescope after each use.
- Store the riflescope in a protective case when not in use.

Disposal Instructions

- Dispose of the riflescope and its components in accordance with local regulations.
- Do not dispose of the riflescope in household waste.
- Consider returning the product to the manufacturer or retailer for proper recycling and disposal.

Contact Information for Further Support

For any safety inquiries or concerns regarding the 3-20x50 PM II Ultra Short Riflescope, please refer to the manufacturer's website or contact their customer support for assistance.

By following these safety instructions, you can ensure a safe and enjoyable experience with your riflescope. Thank you for prioritizing safety and responsible use.
