

# Scope Mounting Leveling System

[Gunsmith Tools](#) > [Sight & Scope Installation Tools](#) > [Scope Reticle Levelers](#)

Precision Begins with Proper Alignment.

The Prussia Precision Scope Mounting Leveling System is engineered for precise optic installation and rifle setup. Designed for gunsmiths, competitive shooters, and precision rifle enthusiasts, it ensures accurate reticle alignment and eliminates cant-related point-of-impact shift.

The system includes a dual-reference leveling design: one module establishes a true rifle baseline while the second verifies optic alignment. Together, they provide a controlled and repeatable setup process during scope mounting.

Machined from CNC aluminum and factory calibrated for accuracy, each module delivers consistent performance and long-term stability. The high-visibility bubble indicators offer a clear and intuitive visual reference, allowing fast and confident leveling at the bench, range, or in the field.

Compact, durable, and easy to deploy, this system simplifies scope installation while improving repeatability and alignment precision.

- **Dual-Level Reference System**

Rifle-level and optic-level modules work together to establish a precise alignment reference.

- **High-Visibility Bubble Indicators**

Provides a clear and intuitive visual reference for fast leveling and adjustment.

- **Adjustable Calibration Design**

Allows fine-tuning to ensure accurate alignment with the rifle's axis.

- **CNC-Machined Aluminum Construction**

Durable and rugged for long-term stability and repeatable performance.

- **Factory-Calibrated Modules**

Ensures reliable reference alignment and minimizes installation error.

- **Compact and Portable Design**

Ideal for bench work, range use, or field setup, improving installation efficiency.

## Attributes

- Name: [Prussia Precision Scope Mounting Leveling System](#)
- Manufacturer: [PRUSSIA PRECISION](#)
- Product no.: EU2016354
- Mfr. No.: PP-1569-BLK
- Colour: Black
- Material: Aluminum Alloy
- Delivery weight: 0.128kg
- Shipping height: 140mm

- Shipping width: 30mm
- Shipping length: 100mm
- EAN: 0726529841213

# Prussia Precision Scope Mounting Leveling System Safety Instructions

## Introduction

Thank you for choosing the Prussia Precision Scope Mounting Leveling System. This guide provides essential safety instructions to ensure the safe and effective use of the product. Please read this guide thoroughly before using the system to achieve optimal performance and safety.

## General Safety Guidelines

- Ensure the product is used only for its intended purpose as specified in this manual.
- Always inspect the product for any signs of damage or wear before use.
- Keep the product out of reach of children and vulnerable individuals to prevent accidents.
- Do not use the product in wet or damp conditions, as this may affect its performance and safety.
- Report any unsafe conditions or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Always ensure that the rifle is unloaded before installing or adjusting the scope.
- Use the leveling system on a stable surface to prevent any accidental tipping or movement.
- Avoid placing excessive force on any module during use to prevent damage.
- Do not modify the product in any way, as this may compromise safety and performance.
- Be aware of your surroundings when using the product, especially in outdoor environments.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure that your workspace is clean and welllit.
- Gather all necessary tools required for scope installation.

### 2. Using the DualLevel Reference System:

- Place the rifle on a stable surface.
- Attach the riflelevel module to the rifle's action to establish a true baseline.
- Use the opticlevel module to verify the alignment of the scope.
- Adjust the scope until both modules indicate a level position.

### 3. Calibration:

- If necessary, use the adjustable calibration design to finetune the alignment with the rifle's axis.
- Confirm that both modules are calibrated correctly before proceeding with installation.

### 4. Final Checks:

- Once the scope is mounted, doublecheck the alignment using both modules.
- Ensure that the highvisibility bubble indicators show a clear level position.

### 5. PostInstallation:

- Store the leveling system in a safe, dry place when not in use.
- Regularly check the modules for calibration and functionality.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- If the product is damaged beyond repair, consider recycling the materials where possible.

## **Contact Information for Further Support**

For any questions or concerns regarding the Prussia Precision Scope Mounting Leveling System, please refer to the manufacturer's contact information provided in the product packaging or visit the manufacturer's official website.

By following these safety instructions, you can ensure a safe and effective experience with the Prussia Precision Scope Mounting Leveling System. Thank you for your attention to safety and for choosing our product.
